TOWN IS DOOMED BY FOREST FIRES

Situation Critical at Wallace, Idaho, and People Are Fleeing.

OTHER TOWNS ARE IN DANGER

Thrilling Race With the Flames—Special Trains Carry Women and Children Away—Fires in .. California and Oregon.

Wallace, Idaho, Aug. 20.—The forest fire situation became critical through the Coux de Allen today. The Placer Creek fire has got away from the soldiers and new flames have started.

At 7 P. M. the mayor of Wallace ordered the chief of police to press into service every able bodied man in the city. Some refused and were either jailed or run out of town. Nearest fires are within a mile and the wind is rising. Conditions at Mullan are similar to those here. The city is doomed by forest fires.

The last words of the telephone operator were that the fire was within 15 feet of him and that he had to run for his life. Women and children were rushed out on a special train of the Oregon Railway & Navigation Company and it is thought no lives have been lost.

People Are Fleeing.

Spokane, Wash., Aug. 20.—A special to the Spokesman Review from Wallace at 10 P. M., says fire from the forests has entered the city and several buildings have been destroyed.

The fire is burning to the east away from the business district, which, it is believed, will be saved. There has been no interruption to the water supply. Special trains have taken 600 persons out of the town.

Fires Raging Elsewhere.

Portland, Ore., Aug. 20.—Forest fires that are devastating various parts of the Northwest are more threatening tonight than any previous time this year.

At Walker and Murray fires on Placer Creek, which were believed to be subdued, have broken out with renewed fury and fears are expressed for the safety of the towns.

In Oregon the most serious situation is in that part of Cascades forest reserves that lies between Klamath Falls and Melford. Two great fires are raging in this district, one in the vicinity of Mount McLaughlin (Mount Pitt) and the other on Ashland Creek. The latter is threatening the water supply and the electric plant of Ashland.

Combating the fires, the forest service an dprivate timber interests have about 500 men in the field.

Late today Forester Cecil received a telephone message from Brigadier General Maus, at American Lake stating that pending the adjustment of difficulties that have arisen, 250 troops promised for fighting fire purposes in southern Oregon will not be sent.

Loyalton in Danger.

Reno, Nev., Aug. 20.—The town of Loyalton, Cal., is in danger of being wiped out by a forest fire that started in the mountains about six miles away yesterday and has spread until it is within one mile of the town. A high wind is driving the fire toward the town and the population of several hundred persons are fighting the flames.

Sparks and cinders are reported to be falling in the town. A telephone message from Loyalton this afternoon indicated that the town is doomed.

Portland, Ore., Aug. 20.—Forester Cecil tonight telegraphed to Washington urging that the Forestry Department arrange with the War Department to have the entire Oregon National Guard ordered to the fire.

The difficulty that prevents the sending of the Federal troops appears to be that there is no available appropriation to defray the expense . President Taft's blanket order to provide troops to assist the forestry service apparently contemplated that the troops move on foot from the nearest post.

The great distance between fires and the American Lake prohibit any possibility of marching. From American Lake to Medford for example it is about 450 miles or from three to four weeks' march.

Missoula, Mont., Aug. 20.—At 11:15 P. M. communication with Wallace is im possible as telegraph and telephone operators have left their posts. The Northern Pacific division officials at Missoula have a wire into Wallace, but are unable to learn details.

Both the Oregon Railway & Navigation Company and the Northern Pacific are rushing people out of town in the direction of Kellogg and Wardner as fast as possible and there is no danger so far as life is concerned.

The forestry officials here are ignorant of the cause or extent of the fire. The latest bulletin issued by the local officers was that the town was safe. This was timed 8 o'clock. The Postal Telegraph Company ordered its operator when he left his office at Wallace, to cut in farther down the line and a report from him is expected later.

Shortly after 11 o'clock the district officers of the forestry service were notified that the little town of Libby, in Northern Montana, was in imminent danger.

Reno, Nev., Aug. 20.—The forest fire that threatened the town of Loyalton, Cal., this afternoon is practically under control and did not come closer to the city than a mile and a half.

The intense heat compelled the residents and the employes of the lumber mills to coak the roofs of the houses and the huge lumber piles. Millions of feet of sawed lumber were in danger.

ESTRADA'S ARMY IS GAINING

Succeeded in Defeating Government Troops in Nicaragua—Ready to Advance on Capital—War May be Nearing End.

Washington, Aug. 20.—Estrada's army succeeded yesterday in crossing the Tipitapa river in Nicaragua after 14 hours' fighting with the government troops and is now encamped before Granada ready to advance upon the capital, Managua, less than 50 miles away, according to cable advices received here tonight from Bluefields by Senor Castrillo, Estrada's representative in Washington.

On the other hand, it was announced today by Madriz's "Peace Commissioners" here, Dr. Barrios and Sebastian Salinas; that they had received a dispatch from Madriz stating that the "insurgents" had been defeated yesterday in attempting to cross the Tipitapa at Panalo yesterday. The dispatch added that a band of insurgents had crossed the river below Palao yesterday and had appeared before Granada. The defeat of another band of insurgents yesterday at Nandaime also occurred with heavy losses to both sides, according to Madriz.

Madriz announced, in his dispatch that he intended to take the field himself to assist in repelling the insurgents' advance on Managua.

Senor Castrillo said tonight that it was only a question of a few days before Estrada's army would be in possession of Managua and then would be in a position to dictate terms of peace. He made public the following dispatch which he received tonight from Bluefields:

"All our army forced a passage to Panalao yesterday. The enemy was routed after 14 hours' fighting, leaving on our hands one gun, more than 100,000 cartridges, 200 rifles, provisions and prisoners."

The report from New Orleans to the effect that the Madriz and Estrada factions had agreed upon terms of peace was pronounced absurd by Senor Castrillo, who explained that Estrada would not treat with Madriz until he had captured Managua or unless overtures were made through the representatives in Washington.

New Orleans, Aug. 20.—Denying that they had agreed to peace terms with Jose Madriz, representatives here of the Nicaraguan revolutionists, tonight issued a statement in which they declared the report current today to the effect that the revolution was at an end was due to the capture by their army of the city of Grenada as well as other victories by General Luis Mena.

General Mena, they assert, is now marching on Managua and Madriz has abdicated in favor of Jose Estrada, a brother of Juan Estrada. Whether Jose Estrada will be permitted to hold the reins of government the local representatives of the insurgents are not prepared to say.

ANOTHER MORTGAGE FILED.

Work May be Resumed Soon at Blewett Falls.

Wadesboro, N. C., Aug. 20.—Another mortgage given by the re-organization committee of the Rockingham Power Company, to the Old Colony Trust Company was filed for record yesterday.

The Rockingham Power Company is constructing the hydro-electric power pl[illegible] Falls and this plant when completed will produce 30,000 horse power and will open up the way for large things industrially in the immediate section. Already the company before its financial troubles which resulted in the sale of the property had expended $2,000,000 and it is estimated that the entire plant can be completed with about $1,500,000 more. Those who are closely connected with the interests behind the re-organization state that active work will soon begin and the plant completed.

WITH GERMAN ROYALTY.

Emperor and Empress Returns From House Warming.

Posen, Aug. 20.—Emperor William, the Empress, Crown Prince Fredrica Wilhelm and Crown Princess Cecillie, Prince Eitel Friedrich and the younger members of the Imperial family arrived here today for the house-warming of the new royal residence. Festivities will last three days.

At the banquet the Emperor's toast to the Province of Posen, concluded as follows:

"This castle shall be a token of my paternal interest for this beautiful German province, which has attained a high degree of prosperity under the sceptre of my house. I shall also encourage all who are willing to work together with soul and body and their faculties in developing this beautiful country. May this province prosper and grow to be a cornerstone in my crown."

Norfolk, Va., Au. 20.—The fight for the Democratic Congressional nomination in the second district has about closed after an apathetic and listless campaign. Both Congressmen Maynard the incumbent and W. A. Young, the aspirant, have come out, with statements that they will win when the votes are counted Tuesday. The general impression is that a light vote will be cast.

CUMBERLAND BOY SHOOTS HIMSELF

Former Sailor on Revenue Cutter Yamacraw at Savannah, Ga.

WAS IT CASE OF SUICIDE?

Bullet Through Right Lung May Prove Fatal, Though He Was Still Living at Last Acounts—Well Liked Where Known.

(Special Star Correspondence.)

Fayetteville, N. C., Aug. 20.—Mrs. W. H. Kyle, of this city, and her brother, Mr. M. A. Warin, of Brunswick, Ga., who was here on a visit, left yesterday afternoon for Savannah, Ga., in response to a telephone message stating that Mrs. Kyle's son, Morton Waring Wooten, had shot and perhaps fatally wounded himself in the Georgia city.

The first details of the tragedy reached here in the Savannah Morning News of today, which has the following with reference to the occurrence:

Although shot by his own hand in an attempt at suicide yesterday, and suffering intense pain from a bullet hole through his right lung, Morton Wooten, a former sailor on the United States revenue cutter Yamacraw, has a fighting chance for recovery according to statements issued at St. Joseph's Hospital last night.

While no statement could be secured from Wooten after the shooting, there is no question that the wound he received was the result of an attempt at suicide. The attempt was made at his lodgings in the home of Mrs. Ellen Burns at No. 5 Houston street and during Mrs. Burns' absence.

According to the statement of Patrolman Winn, who was the first to find the man, Wooten had driven up to the house about 11 o'clock in a hack. Not more than five minutes later, Patrolman Winn said, he heard a revolver shot, but it was so muffled by the walls of the house that at first he was inclined to pay no attention to it. A couple of men standing near the house, however, called excitedly to him that it had occurred in Mrs. Burns' house, and he started to investigate.

Wooten is a young man, and is well known in Savannah. His character is considered good, and he is considered as being rather more intelligent than the usual run of sailors. Among his former massmates on the Yamacraw and at the police headquarters, where he is also well known, he is held as a good fellow at all times, he quickly made himself popular with his acquaintances. Those who know him are at a loss to understand why he should have been tempted to take his own life.

While Wooten's condition is, of course, very serious, the wound is no necessarily fatal. His chances for recovery, his physicians state, are fair. There is, of course, the danger of internal hemorrhages and a possibility of blood poisoning, although the latter is not feared to any extent. The most serious feature of the wound is the piercing of the lung.

Mrs. Burns, with whom Wooten had been boarding, said she knew of no reasons why he should have attempted to his life. So far as she knew, he had had no trouble, nor was there cause for despondency. She was not in the house at the time the shooting occurred, having gone to call a physician. She did this on her own initiative. Wooten had entered the house hurriedly and passed directly to his room. He made no complaint of feeling unwell, but his general appearance was such as to cause Mrs. Burns to fear all was not quite right with him. Accordingly she went to summon a doctor on her own volition. It was while she was away that the shooting occurred.

SHOT WRONG MAN.

Arkansas Deputy Sheriff Killed Negro Under Misapprehension.

Little Rock, Ark., Aug. 20.—Near Arkansas City last night Deputy Sheriff Findlay, of Desha county, shot and killed Sam Hill, a negro, whom he mistook for Henry Tucker, wanted for criminal assault, and murder of a fourteen-year-old white girl.

Hill, when ordered to surrender, started to run and the officer fired killing him instantly. Hill was under indictment for grand larceny, and has served a term in the Arkansas penitentiary.

MOISSANT STILL HALTED.

Strong Wind Currents Keep Him From Flying to London.

Chatham, Eng., Aug. 20.—John B. Moissant, the Chicago aviator, who was forced to descend at Rainham, four miles from here, by an accident to his aeroplane Thursday, ascended at 6:20 this morning on the last leg of his flight to London. A strong wind was blowing.

Moissant made a circle of three miles toward Medway and was then compelled by the strong air currents encountered aloft to descend. He announced that he found the wind too strong and would not be able to make a new start for several hours.

ELLER CALLS THE COMMITTEE

Sixth District Contest Will be Decided Wednesday Night—Are Governor's Appointments Significant?—Convention.

Winston-Salem, N. C., Aug. 20.—The State Democratic executive committee is called to meet at Raleigh Wednesday night, August 24th, 1910, to receive the report of the special committee on the sixth district contest. A full attendance is desired.

A. H. ELLER, Chairman.

Raleigh, N. C., Aug. 20.—Many here who are especially interested in the Sixth Congressional District contest between Congressman Godwin and O. L. Clark, as to which is the Democratic nominee for Congress, attach considerable significance to the fact that today Governor Kitchin announced commissions issued to the Atlantic Deeper Waterways Convention at Providence, R. I., August 31st to September 3rd, and omitted the name of Congressman Godwin and included that of Clark along with Congressman Small, Congressman Kitchin and other Eastern Congressmen and Senator Simmons as delegates. Even Dr. John Faison, the nominee in the Third to succeed Congressman Thomas, is commissioned along with Congressman Thomas himself.

The fate of the Godwin-Clark contest is now in the hands of the committee of five from the State Democratic Executive Committee headed by ex-Governor Jarvis.

The question being asked here is whether Governor Kitchin is taking sides and expressing his choice as to which of the two should be endorsed and as to whether the chief executive has gotten an intimation as to what the recommendation of the committee of the State Committee will be.

Among others commissioned for the Waterways convention are: Jas. H. Chadbourn, W. H. Bernard, Wilmington; E. M. Koonce, Jacksonville; W. J. Hall, Fayetteville; W. R. Capart, Avoca; Frank Wood, Edenton; J. C. B. Ehringhaus, Elizabeth City; C. Ed Taylor, Southport; W. S. Chadwick, Beaufort; W. F. Swaringen, C. L. Stevens, O. G. Dunn, Frank Powell, Newbern; J. T. Sledge, Weldon.

ATTACK ON VICE PRESIDENT.

In Connection With Selection of the Republican Chairman.

Utica, N. Y., Aug. 20.—At the Saturday afternoon luncheon of the Republican League in this city today, ex-Assemblyman Hart, who has returned from a visit to Col. Roosevelt in New York tonight declared that the vote in the State committee that choose Mr. Sherman for temporary chairman of the convention was "cooked up." In the course of his speech Mr. Hart said:

"I assert that Mr. Sherman knew full well that it was Mr. Taft's wish that no move be made toward choosing a temporary chairman, without the fullest consultation with Mr. Roosevelt. A telegram from Mr. Taft to Mr. Sherman to this effect, appears to have been suppressed, for nothing has been heard of it. I asked Mr. Sherman if it is not true that in spite of knowing that Mr. Roosevelt had shown a willingness to act as temporary chairman and in the face of Mr Taft's telegram he personally solicited votes for himself as temporary chairman on Monday night in New York City. Mr. Sherman by lending himself to this act of pettiest politics and by insisting upon holding the appointment with the Woodruff-Barnes element has threatened the disruption of the party in the State."

Washington, Aug. 20.—Former United States Senator Wilkinson Call, of Florida, was taken from his home here to emergency hospital today in an unconscious and apparently dying condition. He is 76 years old.

OUTLINES.

Vice President Sherman and Senator Curtis were exonerated from any connection with the Indian land scandal by the committee investigating the affair in a statement issued yesterday. Senator Gore in a statement explained his part in the charges—— Dr. H. H. Crippen and Miss Leneve in custody of Inspector Dew sailed from Quebec yesterday for London to stand trial. The American dentist declared he was glad to get aawy from this country——General Estrada's forces are reported to have routed the government troops after a 14 hour battle and are now advancing on the capital of Nacaragua. The end of the war is believed to be near at hand—— The Stearns car driven alternately by Cyrus Patschke and Ay Poole, won the 24-hour automobile race at Brighton Beach Yesterday——Clifford Harmon made an aero flight yesterday from Garden City, L. I., to Greenwich, Conn.——Lieut. Vivaldi, the Italian aviator, was killed in a flight yesterday——New York markets: Money on call nominal; spot cotton closed quiet 45 points higher, middling uplands 16.40, middling gulf 16.65; flour steady and nominally lower; wheat spot weak, new No. 2 red 1.05 3-4 elevator and 1.07 f. o. b., new No. 1 northern 1.20 1-4 f. o. b. to arrive; corn spot easy, No. 2, 70 nominal elevator domestic basis to arrive; oats spot steady, new standard white 40 1-2; rosin quiet, turpentine steady.

CRIPPEN AND GIRL BACK TO ENGLAND

Climax of Sensational Chase Across Sea For Alleged Wife Murderer.

DEW GUARDS THE PRISONERS

Attempt to Smuggle Dentist and Miss Leneve on Liner Frustrated—Crippen Shrinks From Photographers—Both Glad to Return.

Quebec, Que., Aug. 20.—Quebec bade farewell tonight to Dr. Hawley Harvey Crippen and Ethel Clare Leneve. At 7 o'clock they sailed for England on board the White Star liner Megantic, due at Liverpool at noon next Saturday. By Saturday night they probably will be lodged in a London jail to await trial for the murder of a woman supposed to be Crippen's wife, Belle Elmore.

An extraordinary accident occurred as Crippen crossed the gang plank. It carried an omen that might well depress a man in the shadow of the hangman's rope. Crippen came hurrying across the plank handcuffed, his hat pulled low over his eyes and his chin buried in his collar, trying apparently to dodge the photographers

In his haste he ran squarely into a rope that held the gangway steady. The rope caught him under the chin and jerked him backward and had not Dew, who was close behind him, caught him, Crippen would have fallen and possibly pitched between the two vessels into the water. The next instant Dew had stood him on his feet and the pair disappeared inside the Megantic.

Miss Leneve, who had left the jail with every evidence of willingness, had to be supported as she crossed the gangplank. As she reached the deck of the Megantic, she fainted and had to be carried to her cabin. It was half an hour before she revived.

Inspector Dew managed the departure of the famous pair in a manner that furnished a fittinfl climax to their sensational capture.

The finishing touch to a performance that more than once verged on opera bouffe came when the Scotland yard detective climbed the gang plank and with impassive countenance entered his name on the passenger list as "Silias P. Boyle." This, in spite of the fact that Dew was probably the best known man aboard and that among his 900 fellow passengers fully 600 had met him here in Quebec.

Mrs. Stone, one of the wardresses brought from London to look after Miss Leneve, appeared on the passenger list as "Mary Byrne," and Miss Foster, her companion, as "Miss Ogilvie."

After making arrangements to board the steamer, Dew conducted his prisoners with a mystery that set the city in an uproar and brought every reporter and photographer in Quebec upon his heels. He smuggled them from the local jail at 7 o'clock with three hacks and five provincial detectives to help his own Scotland yard force. Then by circuitous routes, he drove to the river at Sillery, a village only a mile from the jail in a straight line, but it measured seven miles over the road he chose.

Before the three hacks had reached the river, the whole country side was aroused and, when a party of newspaper men came in pursuit shortly afterwards, they had no trouble in following the trail. In an automobile they reached Sillery in time to see the tug Queen puffing up the river with Dew on deck wearing a triumphant smile. Thus the British detectives escaped the photographers on shore, but the Magantic on her downward voyage from Montreal was not due until noon and the Queen had to lie off Cape Rouge for nearly three hours until the liner arrived.

Alert photographers—and they were not wanting—had thus all the chance in the world to charter a tug in Quebec and steam up the river. And they took it. The Queen was overhauled just as the Megantic hove in sight, and for the next half hour there followed an exhibition of marine, maneuvering that would have delighted the heart of Capt. Mahan—the Queen trying to reach the Megantic, so as to put the prisoners aboard unobserved, the sharp-shooters on the tug jockeying for place.

Finding his task impossible, Dew finally had the Queen lashed to the steamer's side and put Crippen and Miss Leneve aboard under a camera fire partly masked by the efforts of the two prisoners to hide their faces.

Crippen and Miss Leneve were hurried to cabins numbers 51 and 52, which they will occupy during the voyage. Dew took the cabin next to Crippen at one end of the suite, with the two wardresses adjoining Miss Leneve's quarters and Sergeant Mitchell bringing up the other end of the line.

It is understood that Crippen and Miss Leneve will be confined closely to their cabins during the voyage except for a short time each day, when they will be permitted to take exercise on the bridge. There they will be effectually screened from observation.

In full accord with Inspector Dew's system of precautions, neither of them learned that he was to sail today until 6 o'clock this morning when both were awakened.

Both prisoners seemed glad to go. They thanked the jailer for his kindness and Crippen made him a present of one of the second hand novels he had bought to read in his cell. On the fly leaf he wrote with a pencil: "A. M. L. Morin, Governor Quebec City Prison.

"I trust you will do me the great honor to accept this as a small expression of the gratitude I feel for the many kindnesses you have shown me during by sojourn here in Quebec.

"(Dr.) H. H. Crippen." The parenthesis are Crippen's own.

NOMINATION GOES A-BEGGIN'

Fifth District Republicans Name D. H. Blair for the Slaughter—Daily News Stockholders—Frazier for Solicitor.

(Special Star Telegram.)

Greensboro, N. C., Aug. 20.—After caucusing two hours this afternoon trying to decide on a candidate who would accept the nomination, the Republicans of the Fifth district nominated D. H. Blair, of Winston.

Morehead flatly refused to take the nomination and it required persuasion to induce Blair to run. Morehead was on the scene and he was anxious that Blair should run, but Blair in turn wanted Morehead to make the race.

Marion Butler was also on the scene but he kept closely in his room. Duncan and others prominent of his wing, were here also, mainly for the purpose of attending a meeting of the stockholders of the News. The directors are still in conference, but it is likely that the Morehead faction will take the paper over.

The ninth district Judicial Convention named C. Clifford Frazier, a rising young lawyer of Greensboro, as solicitor.

COURT AT LUMBERTON.

Magistrates Have Busy Day—Real Estate Deal—Other News Notes.

(Special Star Correspondence.)

Lumberton, N. C., Aug. 20.—Business in magistrates courts has been brisk part of the day here, and the unusual sitting of two different courts in the court house at one and the same time was witnessed. In the court room before Justice Rowland was tried a case for injury to live stock. Mr. Lacey McNair was the prosecutor and Mr. Atlas McGirt was the defendant. A hog belonging to Mr. McNair got into the cornfield belonging to Mr. McGirt, who put his dog after the hog, which as a result of being overheated and badly bitten by the dog, died in the road. Mr. J. Dixon McLean represented the defendant while Mr. Stephen McIntyre appeared for the prosecution. The justice reserved his decision. While this case was being heard, Justice W. P. Barker was hearing another case in the grand jury room, in which Thos. Davis indicted Thos. Chavis, a Croatan, for using his boat. Prosecutor charged defendant with breaking lock to secure boat. Defendant claimed that the boat had drifted some distance from the river during a freshet, and was left high and dry. He surrendered boat when claimed, saying he did not know who it belonged to. Defendant proved excellent character. Mr. T. L. Johnson appeared for defendant and Mr. W. S. Britt prosecuted. Case dismissed, prosecutor being required to pay the costs, amounting to $4.65 and his lawyer fee.

In the Mayor's court the case against George Norment, Jr., colored, charged with selling liquor, was continued until Monday upon request of the prosecution.

Mr. W. M. McCain, of the Bell Telephone Co., had the misfortune today of losing his pocket book containing one ten and one five dollar bill, a small amount of change and a book of stamps. He lost it somewhere between the iron bridge and two-mile post on Fairmont road.

Mr. J. H. Turner, for the past two years one of the most popular salesmen in the big department store of Messrs. White & Gough, resigned his position today and left on the evening train for his home at Norwood, Stanly county. While Mr. Turner had decided to leave some time in the near future and go into business for himself, he did not expect to leave so soon until today when he received a telegram calling him home on account of the sickness of his mother. Mr. Turner has made many friends here who sincerely regret his departure and wish for him unbounded success in his new venture.

Dr. W. A. McPhaul closed a deal today for the purchase of the vacant lot on North Front street opposite the residence of Col. N. A. McLean, belonging to Mr. George L. Thompson, of Back Swamp. We understand that Dr. McPhaul will at once erect a modern residence which will add much to that already prominent part of town. The sale was made through Mr. Geo. M. Whitfield who has made several real estate deals recently.

DISPROOF OF COOK'S CLAIM

Mount McKinley Climbers Say They Have Conclusive Evidence.

Seward, Alaska, Aug. 20.—The Parker-Browne Mount McKinley expedition passed through Seward yesterday sailing on the steamship Portland for Seattle. The party was unsuccessful in its efforts to scale the peak.

Members of the expedition assert that they have conclusive evidence that Dr. Cook "did not" reach the summit.

SHERMAN'S NAME IS WRONGLY USED

Vice - President Exonerated From Connection With Land Scandal.

CAUSED BY THE GORE CHARGES

Committee Probing Indian Affairs Made Statement—Senator Curtis Also Given Justice. Situation Explained.

Sulphur, Okla., Aug. 20.—The select committee appointed by the House of Representatives to investigate Indian land affairs and the so-called McMurray contracts, and also which has been investigating the Gore bribery charges tonight issued the following statement:

"The committee has heard and carefully considered all of the testimony submitted and is unanimous in the opinion that there is and was no warrant for any person to use the names of Vice President Sherman and Senator Charles S. Curtis in connection with any improper relation with any Indian contract whatever."

This is the opinion of the committee after hearing scores of witnesses who appeared following the testimony of Senator T. P. Gore. Senator Gore said he had been approached by Jake L. Hamon and that Hamon, acting in the interest of J. F. McMurray, had offered him (Senator Gore) $25,000 or $50,000 as a bribe to promote in Congress the contracts by which McMurray was to receive 10 per cent. attorney fees on the sale of $20,000,000 worth of Indian lands.

The Senator testified Hamon had mentioned Senator Curtis and Vice President Sherman as being "interested" in the deal. Mr. Sherman being named as the man "higher up." Hamon, on the stand, denied he had ever said anything about the contracts to Gore.

The committee report was signed by Representatives Charles H. Burk, South Dakota; C. B. Miller, Minnesota; E. W. Saunders, Virginia; J. H. Stepheus, Texas, and Phillip P. Campbell, Kansas.

In giving its decision today the committee announced it had received from Senator Gore a statement relative to Vice President. Sherman and Senator Curtis and the committee "commended" Senator Gore's statement.

This is the statement from Senator Gore, which was read and inserted in the official record of the investigation: "To the Investigating Committee:

"I feel in duty and in honor bound to make the following statement; it is also dictated by considerations of common justice toward the persons concerned: Neither the name of Vice President Sherman or Senator Curtis was mentioned by me on the floor of the United States Senate. That the name of either of these two parties was alluded by Mr. Hamon was steadfastly withheld from the public until this investigation began.

"No public mention of their names was ever made, either directly or indirectly by me until I was required and obliged to do so, testifying as a witness under oath, and detailing the conversation which occurred between Mr. Hamon and myself. I then made formal protest against introducing their names, but the committee in the proper pursuit of its duties required me to make a full answer without reservation.

"Their names were disclosed, not with any view with inculpating them nor with any view of suggesting guilt, but merely in order that the truth, and the whole truth, might be related with reference to the details of the conversation on the question. The public must realize that the name of any man could be used or misused in the same connection, either as an argument or otherwise and no public official can have immunity and protection against such an injury and injustice.

"In my last remarks in the Senate I said that 'The integrity of no man can be impeached upon the testimony of an interested or untrustworthy witness'. That was my conviction then. That is my conviction now. I am sure that in the court of public opinion no judgment or verdict has been returned either against the Vice President or Senator Curtis on account of the misuse of their names in the manner above referred to.

"The investigation is now practically concluded. Many witnesses have been examined, a volume of evidence has been adduced and there is no testimony tending to establish any improper connection on the part of either official with the approval of the so-called McMurray contracts.

"While the public has had no reason to suspect any such improper connection, yet I would venture to suggest and if I may be pardoned, would request that the committee at the earliest practicable moment make an authoritative finding and statement to the effect that no evidence has been presented tending to establish any improper conduct on the part of either Vice President Sherman or Senator Curtis respecting the subject of this investigation."

Senator Gore, who has attended all of the committee's sessions, left today for Paxton, Ill., to fill a lecture engagement. Representative E. W. Saunders, of Virginia, member of the committee, left for his home. The committee announced, however, that the investigation had not been concluded. McMurray will continue his testimony on Monday.

THE WORLD OF SPORTS

RACING — BASEBALL — BOXING

CREW CROWDING ON THE SAIL

Eighteen Innings of Great Ball at League Park Yesterday Afternoon —Sailors Won First, Tied Second.

Results Yesterday.

Wilmington 1; Wilson 0.
2nd: Wilmington 0; Wilson 0.
Fayetteville 0; Goldsboro 3.
2nd: Fayetteville 3; Goldsboro 3.
Rocky Mount 1; Raleigh 0.
2nd: Rocky Mount 1; Raleigh 0.

Where They Play Tomorrow.

Wilmington at Rocky Mount.
Goldsboro at Wilson.
Fayetteville at Raleigh.

For eighteen innings the Sailors and Tobacconists battled at League Park yesterday, playing two as evenly matched games as have been seen on the local diamond this year. The locals administered the second coat of whitewash to the Tobacconists in the first game the score being one to nothing, and in the second game which was intended to terminate with seven innings, neither side was able to put a tally across.

Big Fletcher was appointed delivery clerk for the locals in the first game, and was opposed by "Reddy" Stewart. Rube Haword did the twirling honors for the Sailors in the second session, and McKeithen, a new addition to the Wilson team, for the visitors. In both games the honors were so evenly divided between the respective twirlers that it is hardly possible to say that either had the better of the battle.

The Sailors put up an errorless exhibition in the first game, and made only one excusable fumble in the second while the Wilsonites had five misplays charged to them in the two games.

The details of the interesting bouts follow:

After Wilson was retired in order in the first, Hoffman was safe on error of short, and went to third when Cooper sent one down third base foul line for two bags. Tydeman sent a long sacrifice fly to right, and Hoffman scored, Orth dying on first and Kluttz flying to Westlake. In Wilson's second, Miller started with a bingle to center, and went to second on a passed ball. Benbow was given transportation, after which Hearne hit to second and was safe, Benbow being out on second, while Miller made third base. Hearne stole second, and Armstrong skied to short, after which Sheridan was hit by pitched ball, filling the bases. Stewart, the next one up couldn't solve the mysteries, and their hopes were blasted. Wilmington was out in order. In the third after two were down, Westlake placed a single in center field, Hearne running for him. A passed ball put him to second, but Miller went out short to first. In Wilmington half, after two men had been retired, Cooper was safe on a hit to the infield, and stole second. Tydeman was given four balls, and the same was presented to Orth with compliments of Mr. Stewart, advancing Cooper to third and Tydeman to second, but the hope died when Kluttz aviated to second baseman.

In the first of the fourth, Benbow started with a single to left, Hearne and Armstrong skieing to Tydeman and Hoffman respectively, while Benbow stole second. Sheridan fanned. After Kite and Mills were out in the last half, Dubbs was safe on an infield hit, and was advanced to third on Fletcher's single to left. Fletcher stole second, but Hoffman was out on first. In the fifth after Wilson had been retired in order, two of them being victims of Fletcher's curves, Cooper and Tydeman died on first, after which Orth singled to short, but was forced out on second when Kluttz hit one to short. In the sixth, Westlake flew to left, and Miller was out on first, after which Benbow placed a single to left, and Hearne flew to short, retiring the side. Kite started the last half with a single to center, Hudson running. Mills sacrificed him to second, and he went to third on Dubbs' put out on first, but Fletcher went out, short to first. The visitors were retired in short meter in the seventh, and after Hoffman had died on first, Cooper was safe on an error of first, and stole second. Tydeman lined one to short, who caught Cooper off second, short to second. In the eighth, Jacobs was out short to first, after which Prim singled to short, and stole second, Westlake airing, and Miller skieing to Cooper. In the last half, Orth hit to left for two easy bases, Kluttz hit to pitcher and was safe on fielder's choice advancing Orth to third. Kluttz stole second, and Kite was safe on an error of first, filling the bases with no one out. Mills popped to third, and Dubbs hit to infield and was safe on first, while Orth was caught at the plate, Kluttz advancing to third, and Kite on second, but Fletcher went out to first unassisted. In the ninth, Benbow was safe on an error of Mills, Hearne hit to infield and was safe on fielder's choice, Benbow being out on second, Hearne was caught asleep off first, and Armstrong was the last victim of Fletcher.

Wilmington .. .. .100 000 00x—1 7 1

Summary—Two base hits, Orth and Cooper; sacrifice hit, Mills; safe fly, Tydeman; stolen bases, Primm, Benbow, Hearne, Cooper 2, Kluttz, Fletcher; left on bases, Wilson 7, Wilmington 10; bases on balls, Stewart 1, Fletcher 1; struck out, Fletcher 7; double plays, Benbow to Primm; passed ball, Kite 2; hits by pitcher, Fletcher; time 1:50; umpire, Henderson.

The Second Game.

The last end of the double header was originally intended as a seven inning game by agreement, but as no one scored it ran for nine innings and was called on account of darkness.

In the first frame, Jacobs flew to center, Primm fanned, after which Westlake singled to left, Hearne running for him, but Miller fell before Rube and the side was retired. Hoffman started the last half with a single to center, but was caught trying to annex second, while Cooper was fanning the atmosphere, Tydeman skieing to right. Both sides were out in one, two, three, order in the third and fourth frames. In the fourth, after Prim had died on first, Westlake was given a pass, Hearne running, but was forced at second when Miller hit to Orth and was safe. Miller stole second, but Benbow fanned. In the last half, Hoffman was out on first, after which Cooper went to first on four wide ones, and stole second. Tydeman lined to second, and Orth went out to first unassisted.

In the fifth after Hearne had fouled to Mills, Armstrong singled over second, but was out on second when Sheridan hit to short and was safe, McKeithen going out to first unassisted. Wilmington was out in order, as were the visitors in the sixth. In the last of the sixth after Dubbs had expired on first, Rube was safe on an error of second baseman, but was caught stealing second after Hoffman had skied to right.

There was nothing doing in the seventh or the first half of the eighth, but in the last of the eighth, Brooks was sent in to bat for Kluttz and was given four complimentary balls. Kite was out on an attempted sacrifice, Mills flew to center, and Dubbs was safe on an error of Westlake advancing Brook to third. Dubbs stole second, and Rube struck out. In the ninth, Jacobs was out on first, Prim singled to right, but was caught trying to annex second, after Westlake had fouled to Kite. Hoffman started the last half with a single to right, Cooper was out on first, Hoffman going to second, but the game was ended when Tydeman and Orth died on first.

Summary—Left on bases, Wilson 2, Wilmington 5; stolen bases, Miller, Cooper, Dubbs and Howard; base on balls, McKeithan 2, Howard 1; struck out by McKeithan 5, Howard 7; time 1:40; umpire, Henderson; called end ninth by agreement.

FANS FOOD.

Which was playing the pastime.

Another of those "stars" gone bad.

They all look alike to the navigators.

Poor ex-Champs! We're afraid you can't "come back."

Seven bases were successfully stolen on Miller yesterday by the Sailors.

And you can worry some over another one of those "stars" Mr. Dustman.

This is the last call for that Wilson dopist to retract those Pennant Preambles he has been running in the Raleigh papers.

Dubbsy showed some magnificent head work on one or two occasions, and marathoned to first on an infield hit in the first game.

We see where "Pap" Westlake was on his job when he tried to keep off a double header. It was simply a case of "stage fright" with him.

By a typographical error in this column yesterday morning, we failed to credit Tydeman and Cooper with a stolen base each in Thursday's game.

Bert Kite received an ovation from the grandstand in the second game when he caught Primm on first, making a lightning like pick up and throw to Mills.

Hoffman was the batting boy yesterday getting one in the first game that was a tie between a hit and an error, and poling out two beautiful singles in the second game.

Tydeman couldn't connect safely yesterday, but he got a pass and a sacrifice fly which scored the winning run, as well as eating up everything around left garden.

Tomorrow we battle with that Twentieth Century Limited, and if we can divide honors with them evenly for the week, we can count ourselves lucky, for in the Crew we'll find foemen worthy of our steel.

Umpire Henderson made several decisions which the fans couldn't see, but his past record, than whom there is none better in the league, forbids us disputing them. Anyway he was in a better position to see it than we were.

Fifty-one innings have been played since a score has been tallied against the Sailors. If that record has ever been duplicated in the league we would like to hear of it. And only 21 hits garnered off the pitchers who officiated at said games.

Cooper's playing on third and at the bat yesterday needs no comment, as every one was there to see it. Anyway we would like to remark that he has figured prominently in every victory the crew has annexed in the last two weeks. He didn't have but three stolen bases yesterday either.

The way the Wilson team dragged along in the first game in order to prolong it too late to play the second was outrageous, and "Pap" was the "noblest Roman of them all" in this respect. They were evidently still suffering from a nervous collapse caused by Thursday's performance, and the season will probably be over, before they recover from it.

The following is from yesterday's News and Observer:

"Day before yesterday Hoffman was missed from the Wilmington line up. 'There's a reason.' When Wilmington left Raleigh Larry didn't go because the bell boy didn't wake him. The many friends of Hoffman in the city know that he has a strong inclination to be in Raleigh, And this does not necessarily mean that he wishes to don a Red Bird uniform." At which we whisper softly and inquire when the invitations will be out.

The many friends of Pitcher Bussey will be delighted that he has been found by the big show, and was purchased yesterday by the Washington Club of the American League to report at once, Danville receiving $1,500 for him. His record for the season to date is twenty-one games won out of twenty-five which he has pitched. And to think we could have had him with the Sailor aggregation if we had tried. This bit of dope came over the wire yesterday at the ball park, and is pretty sure to be authentic, as it came direct from the Western Union baseball department at Richmond.

ROCKY MOUNT CINCHES LEAD

Took Both Games From Raleigh in Doubleheader Yesterday Afternoon—Baseball As Played With the Big Show.

(Special Star Telegram.)

Rocky Mount, N. C., Aug. 20.—Chock-a-block with excitement in both games and characterized by baseball as seen in the big show, Rocky Mount administered defeat to Raleigh in both games of the doubleheader today. For 29 innings and during the entire trip the Birds have never circled the corners.

In both games Peartree did the scoring of the one and only run of the game and his playing of the game and base running in large measure accounts for the Railroaders' place alone at the top of the column, a position never before occupied since the league went under National protection. Jobson yielded two safe swats in the first, both for two sacks and the crew annexed one run, a lead the Birds could never overcome. Outside this inning Jobson was immensely effective. Boyle pitched a phenomenal victory as on two occasions second and third were occupied with nobody down but he showed effectiveness and prevented a score. In the seventh a Bird roosted on third corner with nobody down but Boyle refused to be hit for anything that could have tied the score. Both teams fielded well and there was no star to be picked. The game was played seven innings by agreement.

Summary—Sacrifice hits, Clemments, Keating, Gastmeyer; stolen bases, Simmons, Creagan 2, McCormick; bases on balls, Boyle 1; struck out, Boyle 2, Jobson 2; earned runs, Rocky Mount 1; two base hits, Peartree, Stein, McCormick; double plays, Boyle, Gastmeyer to Sharry; left on bases, Rocky Mount 2, Raleigh 5; first on errors, Raleigh 2; time 1:10; umpire, Barre; attendance 700.

Second Game.

A double steal in the eleventh inning tells the story of the Birds' defeat in the second game of the doubleheader. After one man was down in the eleventh, Peartree and Gastmeyer each singled and a second later pulled off a double steal. Stein hit in front of the plate and on attempt to throw him out at first Peartree was game by dashing for the home plate and was successful. This fielder's base running in a large measure accounts for the victory. Lathrop showed the big league form and it was the sixth frame before the crew got a hit and until the eleventh only two had been dropped safe on him. Wilson was by no means outclassed and of four hits made but one of them came before there were two down. Wilson allowed only four men to get life on bases during the game while Forgue made a total of five on a poor throw to first.

New York .....100 000 10x—2 6 1

Pelty and Stephens; Vaughn and Criger; time 1:35; umpires Perrine and Kennedy.

Boston, Aug. 20.—Boston's two pitchers, Smith and Collins, were easy for Detroit today and the visitors won a one-sided game 9 to 0 on their last appearance here this season. Donovan held the home team to four scattered hits.

Detroit .....301 011 003—91 6 0
Boston .....000 000 000—0 4 3

Donovan and Schmidt; Smith, Collins and Kleinow; time 1:45; umpires O'Loughlin and Egan.

Philadelphia, Aug. 20.—Philadelphia made it three straight over Chicago by winning today's game 6 to 4. The home team bunched all of its eight hits in three innings while Bender held Chicago down to five hits. Oldring made three hits, two singles and a three-bagger, driving in four runs and scoring once himself.

Chicago .....020 011 000—4 5 1
Philadelphia ....000 120 30x—6 8 2

Young and Payne; Bender and Thomas; time 1:50; umpires Kerin and Evans.

Washington, Aug. 20.—Cleveland defeated Washington today in a hard eleven inning battle 9 to 5. Gray pitched the last two innings for the locals and went to pieces in the 11th, the visitors scoring four runs on a double, two singles, a base on balls and a wild pitch.

Washington .102 000 101 00—5 15 2
Cleveland ...010 200 020 04—9 14 2

Reisling, Groom, Gray and Ainsmith; Young, Mitchell and Easterly; umpires Colliflower and Connolly; time 2:25.

Really we were a bit surprised when we saw in the Wilson Times of yesterday, set in 36 point type over the baseball column, the startling announcement that "NEITHER DID NOT SCORE," referring to the no-run game here Friday. That was a scoop on all of us, and we'd like to enquire how many tallies each side did really put across, that we may make the necessary correction.

GIANTS WON ONE, TIED SECOND

Goldsboro and Fayetteville Played Interesting Doubleheader Yesterday—Three to Three in Last Contest—Features.

(Special Star Telegram.)

Goldsboro, N. C., Aug. 20.—Goldsboro won the first game today and tied the second, thus making out of a total of 18 played with Fayetteville this season eight won, three tied, and seven lost. Morgan batted in the runs after MacDonald had doubled and Brown singled. Daily caught a beautiful game, accepting 14 chances. Morgan and Schuman starred in the fielding. Pearce and Brandt opposed each other for the second time in this series and Pearce showed a wonderful form, striking out ten and not allowing two hits in any inning..

Second Game.

The second game was remarkable for the number of men left on bases, Goldsboro having 13, Fayetteville 11. Morgan in this game also batted in two runs and later sent the man home that tied the score. Merchant fielded in a sensational manner handling eight assists without an error. He secured a double and two singles. This game was the most hard fought and exciting contest witnessed here this season and many thrilling plays were pulled off. The umpires threw a ball out by reason of Mayer's attempting to disfigure it. Fayetteville thereupon protested the game on the ground that Merchant had done the same thing. Merchant and McCathran pitched good ball, both showing effectiveness with men on bases, but each had a bad inning.

SEMINOLE RETURNS TO PORT

Back From Norfolk and Newport News Where Repairs Were Made—Two Officers Deached—Going North Again Soon.

After an absence of about three months from her home port, spent at Norfolk and Newport News, Va., where she was completely overhauled and repaired, the revenue cutter Seminole, Capt. R. O. Crisp, arrived in port yesterday afternoon at 4 o'clock and is in readiness for her Fall and Winter cruises which begin within the next few weeks.

The Seminole left here on the 18th of May and spent over two months at the ship yard at Norfolk, where she was placed on the railway and most of the repairs made. The extent of the overhauling occasioned considerable delay and the northern cruise during the inter-collegiate yacht races, as in past seasons, had to be abandoned. After coming off the railway at Norfolk the cutter proceeded across Hampton Roads to Newport News, where slight repairs were made at the Warwick Machine Works. While on the railway the bottom of the cutter was scraped and painted, her decks caulked and dynamo placed in order. Direct from the ship yard, her decks freshly painted, her compartments generally repaired and her machinery in splendid working order, the cutter presents a handsome appearance, as usual, when she gets home each Summer from the weeks of overhauling.

No material changes have been made in the staff of officers other than those previously mentioned, which included detachment of First Lieutenant L. C. Covell, executive officer, who was ordered to Detroit, Mich., for inspection duty and Third Lieutenant W. J. Keester, who was recently ordered to the Pamlico, stationed at Newbern, N. C. Lieut. Covell, who was with the Seminole last Winter, and is a popular and affable young officer, is expected to come back to the cutter here during September. First Lieutenant of Engineers W. H. Spear, one of the old officers on the Seminole, well known in Wilmington, has been granted a leave of absence of 54 days, which he is spending in the North. The officers at present on the cutter besides Capt. Crisp, are Second Lieutenants Thompson and Wishaar and Third Lieutenant of Engineers Doran.

Within the next two weeks the Seminole will make the first cruise of the season over her district which extends from Cape Hatteras to Charleston, S. C. In order to have the latest improvements for operation of the wireless the Seminole will go North during the latter part of September, and on the trip will secure a turbine generator. Target practice and drills will be resumed on the Seminole this week.

The cutter has about half a new crew, which was secured while she was at the shipyard at Norfolk. A general court martial will be held on the cutter within the next week or two for three "jackies", who deserted the ship and were afterwards captured.

Real Estate Transfers.

The following transfers of real estate were recorded yesterday in the office of the Register of Deeds: Winter Park Gardens Company to Eddie G. Hall and wife, for $10 and other valuable considerations, a lot 132x660 feet on Maple avenue. Winter Park Gardens Company to James G. Hall, for $10 and other valuable considerations, a lot 132x660 feet on Maple avenue. Mack Faircloth and wife to Thomas Sasser, for $1 and other valuable considerations, a lot 66x165 feet in the eastern line of 14th street 66 feet north of Marsteller. J. D. Dosher to J. H. Haskett and wife, for $500, lot 33x77 feet in the eastern line of Cleveland avenue 132 feet south of Harnett.

Was in Bad Condition.

When the Fourth street bridge at Hilton was closed several days ago it was stated that but very little work was required to put the bridge in good condition, but when the bridge force went to work it developed that the timbers were in such condition and the floor so nearly gone that practically a new bridge is being built. Workmen have been busy for several days on the bridge, but it is not yet completed.

Excursion Monday Week.

What is advertised by the Seaboard Air Line as the "Last Seashore Excursion to Wilmington," will be operated from Charlotte to Wilmington Tuesday week. The train will leave Charlotte at 8 A. M., arriving at 3 P. M., and will return leaving Wilmington at 9:30 A. M. on September 1st. The fare for the round trip is only $3 and tickets will be on sale at all intermediate stations at proportionate rates.

Will Preside at Organ.

At the First Baptist church today Mrs. Hagedorn will preside at the organ and Prof. Hagedorn will play a violin solo for the offertory. Prof. and Mrs. Hagedorn, who have been teaching music at Meredith College, recently returned from a year's study in Germany.

Concert on the Pier.

This morning at 11 o'clock the usual Sunday morning concert will be given at the pavalion on the Seashore Hotel pier by the Lumina orchestra. An attractive programme has been arranged and it is expected that a number of people will be present. These concerts never fail to draw large crowds.

VIOLENT SERMONS IN SPAIN

Government Brings Same to Attention of the Holy See.

Madriz, Aug. 19.—The Spanish Government has instructed Marquis de Gonzales, secretary of the Spanish embassy to the Vatican, who has been in charge of the embassy since the recall of the Spanish ambassador, to cell the attention of the Holy See to the violent sermons being delivered by Roman Catholic priests in Spain. The rumors according to the note of instructions to Marquis De Ganzales are insulting to the Spanish ministers and infianing the passions of the people.

Souvenir dance tomorrow night at Lumina. **

WILL HOLD PUBLIC HEARINGS

Wishes of People Will be Ascertained Relative to Improvement of Certain Harbors and Streams in East Carolina.

Captain Earl I. Brown, Corps of Engineers, United States Army, leaves this morning for Beaufort and other points in eastern Carolina in connection with the examinations and surveys ordered by the recent river and harbor act. He will be out of the city on this work for about two weeks.

Surveys and examinations ordered for the Wilmington district are: Cape Lookout harbor, with a view of determining its availability and adaptability as a commercial harbor; Core creek, with a view to the improvement of navigation up to Core Creek landing; Scuppernong river to the town of Cherry; the harbor of Belhaven and entrance thereto, Slades creek; channel from Core sound to Newport river, by way of Taylor's creek or Carrot island slough; Elizabeth river, Fishing creek and Shallotte river.

Capt Brown will hold a public hearing at Beaufort on August 23rd with reference to the proposed improvements of the channel from Core sound to Newport river. Another hearing will be held at Belhaven on August 25th with reference to the proposed improvement of Belhaven harbor and Slades creek. The desired improvements of the Scuppernong river will be discussed at a public hearing to be held at Columbia, N. C., August 27th. The last hearing will take place on August 31st at Newbern and will concern the improvement of Core's creek.

Assistant Engineer Harry T. Patterson, who is in charge of the Newbern sub-district, and Mr. H. H. Ford, private secretary of Capt. Brown, will accompany him on the trip and Mr. Ford will report the public hearings.

The hearings will be held by the officers in charge of the river and harbor work for the purpose of ascertaining the wishes of the people interested in the different localities, the needs of navigation, and the actual and prospective commerce so that a complete report can be made upon the advisability and cost of the proposed improvements.

PUZZLE WINS THE RACE.

Don Julian Establishes New Record Over Course—The Time.

The free-for-all race in the fleet of the Carolina Yacht Club for the championship flag was sailed over the club course in Banks Channel yesterday afternoon and attracted much attention, having been won by the Puzzle, Capt. E. A. Metts, time 1:18:35.

In the race the Don Julian, sailed by Capt. O. A. Wiggins, broke all records for fastest actual running time over the club course, 1:22, though badly handicapped by the jaws of the gaff breaking just as she arrived at the inlet buoy the first time. The Idler, owned by Capt. Pembroke Jones, in the earlier days of yachting at the beach, held all previous records but these are not now available for comparison with the running time of the Don Julian. The Don Julian and the Puzzle are of the sloop rigged type of boats while the others which entered the race yesterday are of the Class A type. The other records yesterday were as follows:

No. 68, Capt. J. VanB. Metts, time 1:34:35.

No. 74, Capt. A. B. Skelding, time 1:25:07.

No. 69, Capt. R. G. Rankin, Jr., time 1:26:08.

No. 73, Capt. Irwin Corbett, time 1:28:08.

No. 66, Capt. W. M. Parsley, time 1:29:37.

No. 65, Capt. P. W. Davis, time 1:30:19.

The races yesterday did not count in the series for the handsome Jones-Walters trophy. There is a movement for a change of the time of sailing of these races to Saturday afternoons instead of Wednesdays as heretofore.

MR. J. G. BARENTINE STRICKEN.

Well Known Merchant Suffered Attack of Paralysis Early Yesterday.

Mr. J. G. Barentine, one of Wilmington's best known and most highly esteemed business men, suffered a stroke of paralysis during the early hours of yesterday morning and while his condition is not at all alarming, his friends are much concerned. Mr. Barentine retired Friday night in his accustomed health and must have suffered the attack during the night. Mrs. Barentine had been spending a few days at Southport and he was alone in the house at the time. Yesterday morning when the cook came and knocked on the back door for entrance as usual to prepare the morning meal, Mr. Barentine made an effort to arise, but was dumbfounded to find that the use of his right side was gone, though still retaining all his other faculties. The alarm was given and physicians were soon with him, administering to his needs. Mrs. Barentine was summoned from Southport by telephone and reached her husband by special steamer. Hundreds of friends of Mr. Barentine earnestly hope that his condition will continue to improve and that he may soon be himself again.

CAROLINA BEACH HOTEL.

Guests Speak in Highest Terms of Management of Mr. Pearsall.

Although a little late in the season, the Carolina Beach Hotel continues to do a splendid business and Mr. H. C. Pearsall, who recently assumed the management of the hostelry, has proven himself to be an excellent hotel man and one who knows just what is needed to please his patrons. Mr. Pearsall prides himself on giving excellent fare at any hotel he may be connected with and those who have had the pleasure of spending a while at Carolina Beach recently speak in the highest terms of the service given.

Fishing at Carolina Beach is fine and every day large crowds go out to the Rocks or the old wreck of the "Venus" and it is a rare thing for the fishermen to come in without a goodly string of the finny tribe.

Souvenir dance tomorrow night at Lumina. **

SOLDIER DROWNED AT FORT

Man Off on Furlough and Had Evidently Been Drowned for Several Days When Body Was Found.

The body of Okey Furr, a private in Company 19, United States Army, stationed at Fort Caswell, was found yesterday morning floating in the Cape Fear river at a point only a few yards distant from the government pier at Southport. In some manner a report gained circulation that there were marks about the body that indicated foul play but Mr. James F. Woolvin, who went to Southport to prepare the body for burial, stated that he noticed no such marks, but if there had been any marks they could have hardly been detected on account of the condition of the body.

Furr is said to have been a dissipated man and it is supposed that he was on the government wharf in an intoxicated condition and fell overboard. The man was off on a furlough and there is no way of telling just when he was drowned, but it is believed that the tragedy occurred Thursday night as Friday morning a cap and bottle of whiskey were found on the wharf, but at the time nothing was thought of the matter. The body was noticed yesterday morning by the crew of the "Cape Fear," and was near where the cap and bottle were noticed on the wharf the previous morning.

The remains will be brought to Wilmington this morning on the government steamer "Gen. Getty." The man was about 25 years of age and was a native of Decatur, Ill. It is doubtful about the remains being sent to Illinois as efforts to locate his relatives yesterday proved futile. If his people are not located this morning the body will be interred in the Federal cemetery just east of the city.

STRUCK WITH BOTTLE.

Negro Sent to the Hospital for Repairs—Wound Not Serious.

Miles Elliott, colored, was found on Second street last night by Police Officer John Davis, with a bad gash on the head and was sent to the James Walker Memorial Hospital where the wound was dressed and the negro discharged.

He told the officer that he was sitting on the curbing on Second between Market and Dock streets when some unknown negro passing along the street suddenly struck him a terrific blow on the head with a beer bottle. He stated that he had no idea who it was that hit him. Elliott lives on Greenville Sound.

Present Crosses of Honor.

Cape Fear Chapter, Daughters of the Confederacy, have announced that Tuesday afternoon at 6 o'clock Confederate Crosses of Honor will be presented at the Wilmington Light Infantry to the following: A. H. Evans, J. J. Dicksey, Alfred A. Cannon and P. G. Moore, son of the late Col. Roger Moore.

TELLS GAYNOR TODAY.

Name of Would-be Assassin and About the Shooting.

New York, Aug. 20.—If the physicians think advisable, Secretary Adamson will for the first time tomorrow tell Mayor Gaynor, who it was that tried to assassinate him.

He will also tell about the heroism of Street Commissioner Edwards and how he was shot in the arm, while trying to get the revolver away from Gallagher. As yet the mayor knows nothing of the shooting of Commissioner Edwards, nor the name of the would-be assassin. For supper tonight the mayor ate a squab with great relish.

ROOSEVELT DENIES REPORT.

Has Sent no Ultimatum to President Taft—Tissue of Falsehood.

Oyster Bay, N. Y., Aug. 20.—Theodore Roosevelt denied emphatically today that he sent an ultimatum to President Taft demanding that the President break with Vice President Sherman.

"I have sent no ultimatum to President Taft," Mr. Roosevelt said. "The report is a tissue of falsehood from beginning to end and has no warrant in fact."

NEW FIRM FOR WILMINGTON

Messrs. Grossman & Mahler Organize Company—Will Engage in Real Estate and Architectural Business—Offices.

Mr. C. P. B. Mahler, a well known real estate dealer, and Mr. E. F. Grossman, an experienced architect, have organized a company known as the Grossman-Mahler Architectural & Construction Company and will open offices during the coming week on the fourth floor of the Garrell building. Several offices have been rented by the company.

The new company has an authorized capital stock of $125,000 and will conduct a general real estate and architectural business. Mr. Mahler, who has been very successful in the real estate business, will look after that branch, and Mr. Grossman will do the architectural work. Contracts will also be taken as supervising architects and after the company gets thoroughly established it may be that the contracting business will be entered into.

An organization will be perfected just as soon as the charter, which was issued yesterday by the Secretary of State, is received, which will probably be the first of this week. Mr. Grossman will be president of the company and Mr. Mahler secretary and treasurer.

Messrs. Grossman and Mahler have great faith in the city of Wilmington and believe that the town is on the eve of greater developments than ever before.

MURDER AT CHERRYVILLE.

Peculiar Actions of Young Men Drew Fire of Posse.

Cherryville, N. C., Aug. 20.—Ambrose Pruett was shot and instantly killed and Riley Gallart, his companion, was arrested and placed in jail here this morning, following a chase of the young men by Chief of Police J. Lee Beam and a posse of several citizens. The two men had been noticed early in the night dodging around residences in the town and suspicious citizens kept an eye on them. Finally, when they were seen skulking around the bank the chief of police and citizens decided it was time to act, the presence of a grip in the hands of one of the men lending color to the suspicion that they were safe robbers.

The shooting was done by C. S. Reynolds, who was in the posse, when the men were brought to bay. Deputy Reynolds had called to the men to surrender and as he did so, Gallant reached to his hip pocket as if for a pistol. Mr. Reynolds fired, but instead of hitting Gallant, the load of buckshot entered Pruett who was instantly killed.

Mr. Reynolds offered himself to the custody of the sheriff, but County Commissioner J. W. Kendrick said there was no necessity for his being imprisoned, that he was acting in the capacity of an officer of the law and that the killing was to all intents and purposes in self-defense.

Gallant when removed to jail said that the movement of his hand was merely to protect his money, which amounted to only $1.50. He explained to his captors that he and his companion had no intention of robbing the bank or anything else, but that they had been out to see a woman of bad repute and that they were dodging around on that account.

Pruett was from Lincoln county and leaves a wife and three children.

FATAL FALL FROM A DAM.

B. R. Singleton, of Williamston, S. C., Loses Life at Blewitt's Falls.

(Special to Charlotte Observer.)

Wadesboro, Aug. 19.—B. R. Singleton, in charge of the construction work on the dam at Blewitt's Falls, fell from a scaffold this afternoon and was fatally injured. He died within three hours. He resided in Williamston, S. C., and the remains will be taken there tomorrow for burial. Coroner Fenton, after investigation, decided that an inquest was unnecessary.

The New Bonds

If you have North Carolina Four Per Cent Bonds, due July 1st, 1910, send them to us for payment or exchange for the new issue. We purchased $150,000.00 of the new Bonds, which are free of all taxes, and being a State depository are prepared to take up the maturing Bonds.

THE SOUTHERN NATIONAL BANK

ARRANGEMENTS FOR JUNIORS

Final Meeting of Central Committee Last Night—Senator Overman Tuesday Morning—Arrivals Begin This Evening.

The central committee in charge of the entertainment of the State Convention of the Jr. O. U. A. M., which will be in session with some 500 delegates in attendance this week at Wrightsville Beach, held its final meeting last night, Chairman Wm. E. Springer presiding and Secretary Frank Brittain at his post.

The committee was advised that the advance guard of the delegates would begin arriving as early as 6 o'clock this evening and these with all the other visitors will be met at the trains by the reception committee. Chairman Springer last evening received a letter from Senator Overman stating that the time of his arrival was yet a little uncertain but that he hoped to get here Tuesday morning. He will be entertained at The Orton until afternoon when he will go down to the beach and will make his address Tuesday evening in Lumina. The Senator will be heard by an immense crowd. The elegant souvenir programme issued by the committee will be out Monday and will announce the various features of the big week for the order at the seashore.

MR. CHARLES MORRILL DEAD.

Well Known Contractor and Builder. Funeral From Residence.

Many friends in this city will regret to learn of the death of Mr. Charles D. Morrill, which occurred yesterday at his home on Sixth street, between Chesnut and Grace, after a comparatively short illness from kidney trouble, together with other complications.

Mr. Morrill was born January 25th, 1851, and was, therefore, nearly 60 years of age. He had resided in Wilmington since early manhood, having come to this city from Boston. He was a contractor and builder and had superintended the erection of hundreds of homes in Wilmington and the surrounding section. He was regarded as one of the most reliable contractors in the city and was always thoroughly conscientious in looking after work he had contracted to perform. He was a good citizen, respected and esteemed by all who knew him.

He is survived by one son, Mr. Benjamin W. Morrill, and three daughters, Mrs. Robinson, Mrs. William Struthers, Jr., and Miss Lula Morrill, all of this city.

Mr. Morrill was a member of the First Baptist church and always took a great interest in the church work.

The funeral will be held this afternoon at 3 o'clock from the late residence and will be conducted by Rev. J. H. Foster, D. D., pastor of the First Baptist church. Orion Lodge of Odd Fellows, of which Mr. Morrill was a member, has been called to meet at the lodge rooms at 2:30 and the members will attend the funeral in a body. The remains will be laid to rest in Oakdale cemetery.

Albion, N. Y., Aug. 19.—A fire which started in the Granite building today resulted in $100,000 loss. The heaviest losers were Landaur Brothers, a dry goods and hardware concern of E. W. Wilcox. The Orleans County National Bank succeeded in removing all its cash and books from the burning building.

HOT-WEATHER CONSTIPATION

People should be very careful at this time of the year not to become constipated, and if they do become constipated to attend to it promptly. Many people have a special tendency to constipation in hot weather, owing to the sudden change in food and to the fact that the natural moisture of the body that in winter remains within and helps to digest the food, leaves the system in the summer in the form of perspiration. Constipation should be immediately relieved. The best way to do this is not, as some suppose, by eating themselves sick with fruit and making the matter worse, nor by taking salts and laxative waters, which, as all who have tried them know, give but temporary relief; but, on the contrary, you should use a tried-and-true remedy like Dr. Caldwell's Syrup Pepsin, which acts quickly but mildly and which relieves permanently so that a steady and lasting cure results. A bottle can be bought of any druggist, in sizes of 50 cents and $1.00. Those who have not yet tried Dr. Caldwell's Syrup Pepsin, and would like to make a test of it, can do so FREE OF CHARGE by sending their address for a SAMPLE BOTTLE to

CASE WAS EASILY PROVEN

"Naw Sir, I Took 'Em Was Reply of Negro When Asked if He Wanted to Make Statement. —Recorder's Court.

No matter how plain the evidence may be against him, it is a very rare thing for a negro to admit his guilt when brought into court but Hemp McKnight, a typical descendant of Ham, who was before Recorder Furlong yesterday for stealing five pair of trousers from George Shideed, proved an exception to the rule.

When asked if he had any statement to make he replied: "Naw sir, I took 'em."

George Shideed was first examined and said he saw the negro when he tucked the trousers under his coat and when he started towards him he left the store. Another witness testified that he helped catch the negro and when he was captured the trousers were under his arm. It was after the evidence of these witnesses had been given that the boy admitted the crime. He will serve the county of New Hanover for six months on the road force.

Six negro women arrested a few nights since in the vicinity of Eleventh and Princess streets for disorderly conduct, two of the crowd, however, having the charge of conducting a disorderly house preferred against them also were tried. After hearing the evidence, and quite anumber of witnesses were examined, Ida Fields and Susie Haywood, were convicted of keeping a disorderly house and got four months each on the county farm, and in the other cases judgment was suspended upon payment of the cost. The negroes were represented by L. Clayton Grant, Esq.

An old negro man who was charged with throwing garbage into the street was released, it being very evident that he was not the one in reality guilty of the crime.

Fuchs' Anniversary Sale.

The careful buyer of clothing and shoes will be interested in the anniversary sale at Fuchs, which is now in progress and which will continue until Saturday. It will pay anyone to investigate the many bargains that are being offered at this favorite store, where pains will be taken to show the customer exactly what he wants and at a price that will compel a sale.

Wears 30 days longer than any other shoe at the same price.

This 3 eyelet, plain toe, patent pump is built on our New York last which proved so popular and gave such perfect satisfaction last season. It is just the thing for dress up and in gun metal or Russian calf makes a cool, classy street shoe.

The same shoe in our "Terry Special" grade comes in Patent Kid and other fancy leathers and retails for $5.00. It equals the best custom, bench-made shoe.

Craddock Shoes Stand the Racket

Every day in the week, a hundred times every day—you strain and twist your shoes to the breaking point. Ordinary shoes soon lose their shape. They grow baggy. This is because the quality put into them is mostly a matter of looks—and that is entirely a matter of finish well rubbed in and burnished. Quality in lies deeper than the surface. It begins where the shoe begins. It is stitched in with every stitch. Look for quality in a Craddock Shoe and you'll find genteel design, just enough finish to bring out the beauty of the leather and unusual service—unusual length of life.

THE MORNING STAR
FOUNDED [illegible] A. D. 1867

Published by the
WILMINGTON STAR COMPANY (Inc.)
Wilmington, N. C.

Entered as second-class matter at the postoffice at Wilmington, N. C., under act of Congress, March 2nd 1874.

FULL ASSOCIATED PRESS REPORT.

PUBLISHERS' ANNOUNCEMENT.

THE MORNING STAR, the oldest daily newspaper in North Carolina, is published daily except Monday, at $6 per year, $3 for six months, $1.50 for three months, 50 cents for one month, served by carrier in the city or by mail.

THE SUNDAY STAR, by mail, one year, $1; six months, 50 cents; three months, 25 cents.

ADVERTISING RATES may be had on application and advertisers may feel assured that through the columns of this paper they may reach all Wilmington, Eastern Carolina and contiguous territory in South Carolina.

Obituary sketches, cards or thanks, communications espousing the cause of a private enterprise or a political candidate, and like matter, will be charged at the rate of 10 cents per line, or if paid cash in advance, a half rate will be allowed. Announcements of fairs, festivals, balls, hops, picnics, society meetings, political meetings, etc., will be charged under same conditions except so much thereof as may be of news value to readers of the paper.

Advertisements discontinued before expiration of contracts are charged transient rates for time actually published. Payment for transient advertisements must be cash in advance. Contract advertisers will not be allowed to exceed their space at same rates or advertise anything foreign to their regular business without extra charge. Advertisements to occupy special place will be charged for according to position desired.

TELEPHONES: Business Office No. 51; Editorial and Local rooms No. 61. Call either if the other doesn't answer.

COMMUNICATIONS, unless they contain important news, or discuss briefly and properly subjects of real interest, are not wanted; and if acceptable in every other way, they will be invariably rejected unless the real name of the author accompanies the same, not necessarily for publication but as a guarantee of good faith.

Sunday, August 21, 1910.

President Taft said: "The Aldrich-Payne tariff law speaks for itself." That is the reason nobody believes a word it says.

The Republican State platform did the sneak act when it took in that "self government" plank. No kind of government under North Carolina Republicanism is wanted and certainly it is not needed in a State which is making such splendid progress as North Carolina. Tar Heels will repudiate Butlerism and sneakery.

If anything is manufactured in Wilmington buy it in preference to the same article manufactured anywhere else. Don't buy anything anywhere when you can buy it in Wilmington and especially if it is made in Wilmington. Keep your money at home instead of kissing it good bye when you spend it outside your own city.

Marion Butler has "come back" at a mighty bad time for fooling the people. North Carolina once had so much Butler her name dragged in the mire and there was so much humiliation, turmoil and bloodshed that the people's righteous judgment reasserted itself and redeemed the State. One experience in redeeming North Carolina from Butlerism is quite enough. Indeed!

The scheme of the Taft administration, in order to save itself, is to throw overboard Cannon, Ballinger and their likes, who have served the Republican party as it wanted to serve them. Taft finds that they will not consent to be his Jonahs and thus his scheme fails. The best way to get rid of Aldrichism, Cannonism, Ballingerism and the tariff monster is to throw overboard the entire Republican party.

Republican papers abused and villified Marion Butler while he was trying to make Morehead their State chairman. Butler succeeded, Morehead got there because Butler was behind him and now those Republican papers have swallowed Morehead and declare that Butler did not make him State chairman. Their first efforts were to defeat Morehead for State chairman. Their final efforts are to deceive the people by pretending to deny Butler the honor to which he is entitled. We never could stand for double dealers and deceivers. Can you?

The Atlanta Journal, which is pulling for the Hon. Hoke Smith for the gubernatorial nomination in Georgia, has jumped on Governor Brown's friends for claiming that he or his administration is responsible for 15 cent cotton. The Brown men should be refuted at once or the Republican campaign speakers will be knocked out. They claim credit for the high prices we get for our products but swear by all that is true and holy that they have no responsibility whatsoever for the high prices which we pay for what we buy. We don't believe that story about Governor Brown, because we hardly think he is so absurd as a Republican campaigner.

The latest news from Oyster Bay is that ex-President Roosevelt is afraid lest he should be a disturbing factor in Republican politics. Therefore, he is to have nothing to do with the campaign and will neither endorse nor criticise the Taft administration. The interpretation of this is that he will go right back "on the fence," the very attitude that has brought on all his trouble. If he had endorsed Taft, or proclaimed himself an insurgent, his position would not keep Taft and the balance of us guessing. The apparently strained relations between Taft and the Colonel at this time is because Taft construes silence as the very best of signs that Roosevelt is really against the administration. "He that is not for me is against me."

GROWING INTEREST IN DRAINAGE

The importance and advantages of drainage are being timely recognized throughout North Carolina. The interest is growing and practical results are sure to follow. In addition to the drainage movement in eastern North Carolina, several counties in the central portion of the State, contiguous to the Southern Railway, have become so concerned in the subject that a drainage convention is to be held next Tuesday, August 23rd, at Concord.

Cabarrus county led off with the movement for that convention and Mr. G. Ed. Kestle, chairman of the board of commissioners of the county, has invited the counties of Mecklenburg, Rowan, Stanly, and others, to send delegates to attend and participate in the drainage convention. Messrs. Charles E. Long, of Newton, and J. G. Elliott, of Hickory, who are said to be "two of the best known and most expert drainage men in the State," have accepted invitations to address the convention.

The Concord drainage convention has been called to consider the question of employing steam dredges to drain the streams and low lands of Cabarrus and adjoining counties. The splendid results of such drainage undertakings in Catawba and Lincoln counties, in the Piedmont, have attracted the attention of other counties and we are sure that quite a revolution is to take place in the counties which are going to undertake the movement to reclaim their magnificent bottom lands, which are among the most fertile and productive soils on the American Continent. Great wealth lies in these splendid lands and it is a tremendous waste to allow them to lie idle while other lands far less productive are being farmed to death.

Mr. Charles E. Long, of Newton, Catawba county, and Mr. J. D. Elliott, of Hickory, in the same county, are quite well prepared to speak upon the subject of drainage, both as to its technical features, its advantages in the reclamation of lands and the beneficial results from a healthful point of view. Mr. Long has been associated with the dredging scheme on Clark's Creek in Catawba county, and is thoroughly familiar with the technical features and practical work involved in drainage operations. He built the drainage dredgeboat, bought the machinery, started the work on Clark's Creek and is familiar with the initial cost and necessary equipment for carrying out effective drainage projects. He will give the Concord convention all the facts as to the reclamation cost per acre and the expense of moving the dirt and rocks per cubic yard, as well as all other matters that naturally may arise in the discussion of this important matter.

The Charlotte Observer states that Chairman W. M. Long, of the board of county commissioners of Mecklenburg county, and some of his associates on the board, will attend the convention. Chairman Long declares that Mecklenburg has stood in great need of work along this line and tells our valued Charlotte contemporary that "there are thousands and thousands of acres of bottom land in Mecklenburg county now practically worthless, which, with a little drainage, would be the finest corn land in the State." The Observer thinks work along scientific lines in connection with systematic or extensive drainage projects would be worth hundreds of thousands of dollars to Mecklenburg county, and in addition to the monetary value of the reclamation, drainage would be a great thing from a sanitary standpoint. These views are quite correct, and we are confident that the more drainage we have throughout North Carolina, if it is done on a practical and scientific basis, will reclaim North Carolina's most fertile and productive lands, adding wealth by reason of greater crop production and attracting attention to her agricultural possibilities.

Chairman Kestle, of the board of county commissioners of Cabarrus county, referring to Mr. J. D. Elliott who is to address the convention, says he is a prime mover in drainage work in North Carolina and is enthusiastic over it. He says: "Mr. Elliott, I believe, is the author of the North Carolina drainage law, the best law of its kind in any State, so the government expert on this question tells me." We presume the drainage law to which Chairman Kestle refers is the bill introduced by Senator Kluttz, of Rowan, and pushed through the Legislature by him and Senator Oscar L. Clark, of Bladen county. That law is a good one and it promises to work a revolution in eastern North Carolina, where many of our rich swamp lands and savannahs will be reclaimed despite the fact that the Federal Government has not yet considered the drainage of Southern swamp lands equally as important as the reclamation of the arid lands of the West by irrigation projects established by government aid.

Several drainage projects, in accordance with the provisions of the Kluttz-Clark law, are now being promoted in Columbus and Bladen counties. The project now making progress in the Whiteoak Swamp section of Bladen will reclaim a large area of land which cannot be surpassed by the richest lands in the Mississippi bottoms. They not only produce corn on an enormous scale but cotton that cannot be equalled in the very richest portions of the cotton belt. The White Oak Swamp Drainage Company is not operating under the State drainage law, but is a corporation consisting of the owners of the lands to be benefited by the drainage project which the company has in hand. That project is under way and will make a good object lesson for the owners of the fine swamp lands throughout eastern North Carolina. It is understood that good progress is being made with the drainage project in the White Oak Swamp section which is in Pender county near Lyon Swamp. The latter covers a much larger area and it will be the first drainage work under the new law.

Lyon Swamp is to be drained by a corporation under the State drainage act. The corporation is known as the Lyon Swamp Drainage Company and it will soon begin operations. All the preliminary steps have been taken by the company and it will be perfected next Wednesday, August 24th, at Burgaw, when the Clerk of the Superior Court completes the legal phases of the work and will authorize the drainage commission to go ahead with its work of draining Lyon Swamp. That project will drain 7,000 acres of matchless swamp land besides 5,000 acres of land in the community. Mr. B. F. Keith, Collector of the port of Wilmington, owns several hundred acres in Lyon swamp and a portion of it is under cultivation, while there are many farmers who have both cleared and undrained lands in that big swamp country. Notwithstanding the present imperfect drainage of the lands of Collector Keith and thousands of other acres belonging to neighboring farmers, they are the finest lands in large bodies we ever saw. They are not only immensely rich but level and capable of being worked by the most modern of agricultural machinery. There are thousands on top of thousands of such lands in eastern North Carolina to be brought under cultivation by the drainage projects which are now being taken hold of by our people. The reclamation of these fertile acres means bigger crops on fewer acres with less work and a greater money return on the investment and labor utilized in farming operations. Good lands produce the best results and are more economical than less productive lands which require more labor to farm more acres that do not yield a proper return for the labor and the money expended. When we employ only our best land in agriculture the results can be nothing but satisfactory.

It should not be forgotten that North Carolina has a State Drainage Convention and that its next meeting will be held in Wilmington in November. It is time for all counties in the State, interested in the big question of drainage, to begin making their arrangements to send delegates to this State convention to be held in our city. The officers of the convention include many leading men, the secretary being Dr. Joseph Hyde Pratt, of Raleigh, the State Geologist. There are numerous vice presidents from the various counties including the Hon. J. A. Brown, of Columbus, J. B. Croom, Jr., of Pender, J. H. Clark, of Bladen, George B. McLeod, of Robeson, John E. Fowler, of Sampson, Jackson Johnson, of Brunswick, and others. It is a new movement in North Carolina and it is going to do a great work for the State. Under our own State drainage law, practical drainage will be accomplished and no doubt through the State organization the Federal Government will give its aid to large drainage projects as it is doing for the irrigation projects in the West.

It will get so after while that Col. Bryan and Col. Roosevelt can get together and recount their "rebuffs" to ascertain which has had the most coming to him.

President Taft made a trip over into Rhode Island and for the first time, in raking up family history, made the discovery that he is distantly related to Senator Aldrich. The multi-millionaire Senator, however, is entirely too rich to be considered the family skeleton.

Gallagher, the man who attempted to assassinate Mayor Gaynor of New York, said: "I am a follower of W. R. Hearst." Probably Hearst didn't know Gallagher was in his procession. However, that is no reason why Mr. Hearst should not turn back and go no further with his followers.

A Georgia paper exultantly exclaims: "Tom Watson is a whale." Judging from the way in which Watson is chasing Congressman Sam Hardwick, of the Tenth Georgia District, he is laboring under the delusion that the distinguished Georgian is nothing more nor less than Jonah.

The activity of Tom Watson in Georgia politics has been to defeat five Democratic Congressmen and to take one of the seats for himself. Tom Watson has gained notoriety by being a malcontent. Some men are as well satisfied with notoriety as they are with reputation, and Tom Watson seems to be one of them.

ROBBED BY CONSENT OF THE ROBBED.

The manufacturers of rubber goods use raw rubber. Senator Aldrich and his family sell them the raw rubber. Senator Aldrich made sure that the duty on rubber manufactures was increased to 35 per cent. Protection graft to that extent would enable the manufacturers to pay more for raw rubber, and if they didn't do it as a matter of gratitude for a big favor some of their tariff graft could be squeezed out of them by Senator Aldrich and his rubber trust, which monopolizes the sale of raw rubber. Isn't the game a fine one? Wouldn't you consider yourself raw if you couldn't see the reason why Aldrich increased the duty on manufactured rubber, instead of decreasing it for the benefit of us consumers who are asked to support the Republican party in its open and shut game of legislating against the interests of the people?

The Republican party puts its hand into the pockets of the people and empties what it takes out into the laps of protected interests who are squeezing the people. When a voter is putting in a Republican ballot he should picture himself as a man with the hands of the Republican party in his pockets, and that by his vote he is helping to rob himself. It would be a case of being robbed by the consent of the victim of the robbery.

A woman may believe what her husband tells her if there is circumstantial evidence.

By trying to keep quiet Colonel Roosevelt has created a great disturbance. Taft does not regard that Roosevelt silence as golden.

In justice to the white race it must be said that it does not furnish all the grafters. Consider those Indian "low balls" in Oklahoma. It is evident that the Indian can not now go around boasting that he is better than a pale face.

In order to have had no hard feelings, Roosevelt might have endorsed Taft early in the game. The Colonel should realize that his silence made the administration go to work to force his hand. However, the Colonel refuses to show down.

The next best thing to railroads are good roads throughout the rural districts. Good roads in a county which has no railroad will soon create a demand for a railroad. Good roads in a county which has a railroad will build up the county and the railroad.

CURRENT COMMENT.

Should either Taft or Teddy split, as we hear they may, it would be a seismograph disturbance, in either case.—Charleston Post. (Dem.)

If you want to see a man just now, he is either gone to the mountains or gone fishing, so what's the use.—Charleston Post. (Dem.)

"I will not fight windmills filled by breezes blown from the lungs of political or personal enemies or cowards," says Uncle Joseph, in reply to the Longworth blast of yesterday. Sometimes Uncle Joseph is very epigrammatic. While we admit that the old warhorse has got to go to pasture, we should hate to see him led there by such as Nicholas. The old sport ought to be kicked out in decent style. —Savannah News. (Dem.)

It seems that the Waterloos that are following the latest return from Elba are sprinkled all along; four small Waterloos since the 18th of June. First the New York direct primary law failed to be hatched; then Ohio went against son-in-law Longworth; then nephew Robinson lost out, and now New York Republicans chose even James S. Sherman for a minor honor over the Returned One. It seems that a man can return without coming back.—Savannah News. (Dem.)

Some Cannons won't go off until they are fired. Indications are that the lanyard will be pulled for the Speaker of the National House of Representatives. His own assertion that he doesn't intend to get out if his party wants him to continue in his present job is a good indication that the "if" is a big one. If his party continues to split up and flake off there will not be enough left of the stand pat part of it to give the present Speaker a complimentary vote.—Savannah News. (Dem.)

Nathan Straus, philanthropist, who introduced in New York the plan of saving babies' lives by pasteurizing the milk, has transplanted his good work into Germany, and the German Imperial Health Office, struck by the results he has obtained has taken cognizance of his work. As a result thirty-two milk depots in different parts of Germany are to use pasteurization under the auspices of the imperial government. Wherever this process has been adopted there has been an immediate decrease in the mortality rate among infants, sometimes a decrease of more than 50 per cent.—Savannah News. (Dem.)

A staff man of this paper visited Waynesville yesterday and made some observations of an interesting character, some of a political nature. For example, there were Mr. Crawford and other leading Democrats who aver that there are only a couple of hundred Republican voters left in Haywood, and this Fall they expect, they say, to make it unanimous for the Democracy. When this statement was challenged the reply came that one had only to refer to the returns, behind which one can never go. The total vote for Messrs. Crawford and Grant at the last election was 3,247, while in the Democratic primary just held 3,044 votes were cast and therefore, from this process of elimination it would seem that the Republican party in Haywood had been reduced to about the vanishing point since it must be taken for granted more especially John Granted, that no Republican in good and regular standing would for a moment think of participating in a Democratic primary. We suspect, however, that Republicans will say they had some little choice among "sp'ilt" fish, and that their party followers will be found inside the ranks on election day.—Asheville Gazette-News. (Rep.)

Figures presented at the fourteenth annual gathering of the East Carolina Truck and Fruit Growers' Association, held in Wilmington this week, gives a concrete idea of the importance which the trucking industry has come to assume in that section. The association has been in existence since 1897 and Secretary H. T. Bauman estimates that since organization it has handled in the neighborhood of 5,000,000 crates of strawberries, from which the net returns amounted to more than $11,000,000. The fact that the strawberry shipments of 1910 show an increase of 86,000 crates over those of 1909 indicates that the cultivation of strawberries has not yet reached its ultimate expansion. The season just past, in spite of some drawbacks, was quite prosperous. The total number of crates of strawberries shipped was 428,000, yielding an estimated net revenue of about $500,000. Of lettuce, vegetables, cantaloupes and potatoes the association handled 521,000 packages, yielding $450,000 net, so that the net receipts from the produce handled total very nearly $1,000,000. The truckers of Eastern Carolina have seen the advantages of harmonious cooperation, not the least of which is the remarkably low expense account of such an organization as they have created. The secretary's books show that the association has averaged only a few dollars more than $2,000 yearly in cost of operation, which means a most gratifyingly moderate percentage of the profits. Without some such unity as that furnished by this association the development recorded would have been impossible, and the utility of the scheme will naturally increase as the business handled grows larger. —Charlotte Observer.

TO PALE, THIN PEOPLE.

Druggist J. Hicks Bunting Offers to Pay for Samose if it Does Not Make Thin People Fat.

Samose, the remarkable flesh forming food should be used by all who are pale, weak and thin. It mingles with the food and aids assimilation, so that when taken for a short time, Nature will soon assert her normal powers, and the food that is eaten will give strength and good flesh.

Weigh yourself before you commence the use of Samose, and you will notice a steady gain. Samose is a scientific flesh-forming food that restores the thin and scrawny to their proper weight, and fills the weak and debilitated with vigor and vitality.

Such remarkable results have followed the use of Samose that Druggist J. Hicks Bunting is willing to pay for the treatment if it does not give the desired results.

COMPLAINT AGAINST RATES.

Made by South Carolina Mill to Commerce Commission.

Washington, Aug. 20.—South Carolina cotton mills are complaining of the rates on steam coal from the various fields which supply them with fuel. The Victor Manufacturing Company, of Greers, S. C., and other large cotton operators in South Carolina, today instituted a complaint before the Interstate Commerce Commission against the Southern Railway and other carriers urging that the present rates on coal from the Coal Creek region in Tennessee are unjust and unreasonable and that the recent advances made in those rates are unlawful and discriminatory.

MILLS ARE CLOSING DOWN.

Thousands of Employes Out of Work in Massachusetts.

Lowell, Mass., Aug. 20.—The Massachusetts cotton mills here were shut down today until September 6th. The corporation employs about 2,500 operatives.

Metheun, Mass., Aung. 20.—The Metheun Cotton Mills were closed today and will re-open September 6th. About 600 hands are employed.

Wolfboro, N. H., Aug. 20.—The South Wolfboro Wool mills have shut down for an indefinite period.

BEQUEST FOR ANIMALS.

New Orleans Woman Leaves Money to Provide Drinking Fountains.

New Orleans, Aug. 20.—Making the Society for the Prevention of Cruelty to Animals the residuary legatee of her property, Mrs. Mary Greenleaf, wife of a former prominent physician of New Orleans, left a substantial sum to be applied to the erection of drinking fountains "for smaller animals in the most out-of-the-way places." It was further directed that a sum should be devoted to the "protection and relief of dumb animals."

5,000 yards of black diamond chambray, the 12 1-2 cent grade, in three to 10 yard lengths, 9 cents at Gaylord's. **

PERSONAL PARAGRAPHS.

—Mr. J. W. Foy, of Raleigh, was here yesterday.

—Mr. T. A. DeVane, of Red Springs, was here last night.

—Mr. Hal V. Worth, of Fayetteville, is registered at The Orton.

—Mr. W. J. Gardner, of Charlotte, is registered at The Orton.

—Mr. W. E. Norris, of Newbern, was a guest of The Orton last night.

—Mr. Thomas C. Worth, of Durham, arrived in the city yesterday evening.

—Mr. C. C. Hudson, a well known traveling man of Greensboro, is in the city.

—Editor Lauchlin McNeill, of Burgaw, spent yesterday in the city on a business trip.

—Mr. G. C. McFayden, of Pheonix, N. C., was in the city yesterday making business calls.

—Hon. H. L. Cook, of Fayetteville, spent last night in the city and returns to his home this morning.

—Mr. John X. McDonald, superintendent of the Waccamaw Lumber Company, spent yesterday in the city.

LOCAL DOTS.

—Myrtle Grove Sound roasted oysters will be served on Carolina Beach today. The steamer Wilmington leaves at 9:15 A. M. and 2:30 P. M.

—Marriage license was issued yesterday to Miss Hattie L. Canady, daughter of Mr. and Mrs. J. H. Canady, of Middle Sound, and Mr. Louis A. Covil.

—Assistant Engineer Robert C. Merritt left last night for Baltimore where he will inspect the repairs being made upon the United States tug "Cynthia."

—Sally Kelly, colored, was arrested last night for an affray. The other woman in the fight eluded the officer. The fight occurred about Third and Queen streets.

—Members of the Wilmington Band and all parties interested in a band for Wilmington are asked to meet in the Mayor's office at the City Hall tomorrow night at 8:15 o'clock.

—Mayor W. Ross Davis and Secretary W. E. McDaniel, of the Town of Whiteville, invite proposals for street improvements in that enterprising municipality. Advertisement elsewhere in today's paper gives particulars.

—Through an error in reporting the naval stores quotations to the Chamber of Commerce on Friday the price of rosin appeared in the Star at $5.00 per barrel when it should have been $4.90.

—Fishing at Wrightsville Beach during the past week has been unusually good and each day fishermen are seen out on the steel pier in front of the Seashore hotel pulling out blue fish, trout, king fish and occasionally a drum.

—All members of Orion Lodge No. 67, O. O. I. F., and all other Odd Fellows who care to join in this solemn duty, are requested to meet in I. O. O. F. hall at 2 o'clock this afternoon for the purpose of attending the funeral of the late Mr. C. D. Morrill.

HAMMOND SUPPORTS TAFT.

Vigorous Defense of Administration—Taft Keen Politician.

Cleveland, O., Aug. 20.—With the statement that President Taft was one of the ablest and most sagacious of the executives of the United States, John Hayes Hammond made a vigorous defense of the administration today at the annual outing of the Cuyahoga County League of Republican Clubs.

Mr. Hammond justified Mr. Taft's support of the Aldrich-Cannon section of the party on the ground that had he plunged into a Republican civil war his four years term of office would have been bereft of results and not one of his campaign pledges could have been carried out. Mr. Hammond said in part:

"The people have come to regard President Taft as a man of indomitable courage and inflexible determination. In the early part of his administration it used to be frequently asserted that President Taft did not understand the political game. It is quite true that he does not play "good politics" according to the concepts of pot house politicians in that he does not subordinate questions of National importance to those of party expediency, or even to those of self aggrandizement, but recent events must have impressed it on the minds of all critics that the President has a masterful grasp of political affairs and of political methods.

"It has also been asserted by critics of the administration that the President was being unduly influenced and imposed upon by what was alleged to be the unholy Cannon-Aldrich alliance.

"It required admirable moral courage and far-sighted statesmanship for President Taft to pursue the course he did pursue. Any other course would have resulted in four years of futile Republican administration."

Mr. Hammond asserted that all talk of a new party was absurd as such a movement would die at its birth for lack of popular support. He declared that there was no possibility of any man save Mr. Taft receiving the next Republican nomination for President and scouted the idea of the Democrats obtaining control of Congress on account of what he termed their absolute failure to offer the people any definite programme.

DEATH ENDS DIVORCE SUIT.

Prominent Virginian Blew His Brains Out—The Tragedy.

Norfolk, Va., Aug. 20.—Sued for divorce from his wife and with all of his children reported to be on the side of their mother, Hunter James, aged 58 years prominently connected in Princess Anne county committed suicide yesterday. With a shot gun he blew off the top of his head.

The couple were married in 1887 and in the last ten years were separated.

DIED.

MORRILL.—At his home in this city, Saturday, August 20, 1910, CHARLES D. MORRILL, in the 60th year of his age.

Funeral from the residence this (Sunday) afternoon at 3 o'clock, from residence; interment in Oakdale cemetery. Friends and acquaintances respectfully invited to attend.

PURCHASES CHADWICK FARM

Mr. W. A. Simpkins, Cotton Seed Merchant of Raleigh, Acquires Valuable East Wilmington Property for Demonstration.

Mr. D. N. Chadwick, Jr., returned yesterday evening from Raleigh where he closed a deal by which Mr. W. A. Simpkins, the well known cotton seed merchant of Wake county, acquires the valuable Chadwick place of 92 1-2 acres in East Wilmington, which will be used by the purchaser as a demonstration farm for the Simpkins' Prolific Cotton Seed, which have gained a wide reputation all over the South.

Mr. Simpkins spent Friday here and went over the place carefully and was struck with its immense fertility and its splendid location and suitability for the purposes to which it will be put. There are now growing on the place some as fine cotton as there is in the State and Mr. Simpkins at once saw that the soil would demonstrate in no uncertain way the advantages of his special seed product. The purchase price for the farm was not made public, but it was large as the owners were preparing to cut the tract up into small suburban farms and sell them at auction on Tuesday of this week. The auction sale has now been called off. Mr. Simpkins will place in charge of the farm Mr. Thos. Morris, an experienced cotton grower of Wake county, who will be his superintendent here. Mr. Simpkins has made a fortune out of his cotton seed business and has shipped car load after car load all over the South. His purchase of the Chadwick farm means quite an industry for this city and section.

WHAT HAS CHEMIST FOUND?

Writes to Coroner That He Will Come Here to Testify for State—Analysis Probably will be Completed Wednesday.

The analysis of the stomach of young Edward Cromwell, who was found dead in the Rock Spring hotel after the fire that destroyed that building about ten days ago, will probably be completed by Wednesday, but Dr. C. D. Bell, the coroner of this county, does not know whether the report of the finding of the chemist will be made to him or to the solicitor.

Yesterday Dr. Bell received a letter from the State chemist saying if he had to come here to testify it would be $25 per day, but that he would want an arrangement made so that he would not have to remain at the trial more than a day. It is regarded as a little significant that a letter should have been written concerning court for if no trace of poison is found in the stomach the State would have no use for the chemist who made the analysis, but if poison is found he would be a very material witness.

It was rumored on the streets yesterday that Holly had made a statement concerning the Rock Spring affair, but all efforts to run down the rumor proved futile.

Captain W. A. Scott, deputy insurance commissioner, will probably arrive in the city today and be ready to go to work Monday for the purpose of seeing if there is any evidence to show that the hotel fire was of incendiary origin.

In addition to the firm of Ricaud & Empie, retained by Holly soon after his arrest, he is said to have secured the services of Herbert McClammy, Esq., and Hon. John D. Bellamy. Messrs. Rountree & Carr represent the Greensboro Life Insurance Company, in which company the unfortunate boy was insured.

SUNDAY SERVICES.

Announcements by Wilmington Pastors for Pulpits Today.

St. Thomas' Church: First Mass 7 A. M.; last Mass, sermon, 9:30 A. M.

St. Matthew's English Lutheran church, North Fourth street, Rev. H. E. Beatty, pastor. Regular services 11 A. M. and 8 P. M. Sunday school at 10 A. M. Mid-week service Wednesday evening at 8 o'clock. Everybody welcome.

First Church of Christ, Scientist, Market and 17th streets: Service at 11 A. M. No night service. Subject of lesson sermon, "Mind."

At St. James' Episcopal church, there will be communion service at 7:30 A. M., morning prayer at 11 A. M.

At the First Baptist church today at 11 A. M., the pastor, Dr. J. H. Foster will preach on "The Market Place." Prof. Hagerdon will render a violin solo at the morning service. The subject at night will be "The Second Coming of Christ." Miss Snead will sing a solo as an offertory.

Trinity Methodist church, Ninth and Market streets, Rev. E. R. Welch pastor. Special service for children at 11 A. M., subject will be "Peculiar Little Animal of the Bible."

Rev. E. R. Welch, pastor of Trinity Methodist church, will conduct services at Villa View, Wrightsville, this afternoon at 4 o'clock. Special service will be conducted for children.

ENGLISH BOAT LOSES.

American Yacht Snatched Victory and Takes Trophy.

Larchmont, N. Y., Aug. 20.—Poor handling lost an easy victory to the Duke of Westminster's Pioneer, flying the colors of the motor yacht club of Great Britain and a challenger run here today for the British international trophy, better known as the Harmsworth cup. The crack American entry Dixie II, finished 13 minutes, 37 seconds ahead, after her swifter rival had been forced to sacrifice nearly 20 minutes in making repairs.

STANDS BY CANNON.

Congressman McKinley Says He Won't Desert Uncle Joe.

Champaign, Ill., Aug. 20.—Congressman W. B. McKinley, of this district, chairman of the National Republican Congressional Committee, in reference to rumors that he would not again support Mr. Cannon for the Speakership, said today:

"I am Mr. Cannon's friends and if he is a candidate for Speaker I shall certainly vote for him."

5,000 yards of black diamond chambray, the 12 1-2 cent grade, in three to 10 yard lengths, 9 cents at Gaylord's. **

Try a Star Business Local.

NATIONAL LEAGUE.

Pittsburg, Aug. 20.—Boston today made its last appearance in Pittsburg for the season, and won because the Pittsburgs were outplayed. Brown pitched a heady game all the way. Brilliant fielding work on both sides punctuated the game. Boston won in the sixth inning when Shearn and Abbatchio hit for three bases, the latter scoring on a wild throw to the plate by Byrne.

Pittsburg	000 020 000	2	10 3
Boston	000 100 000	3	10 1

Adams, Leever and Gibson; Brown and Graham; time 1:55; umpires Johnstone and Eason.

St. Louis, Aug. 20.—Philadelphia won the second game of the series from St. Louis today by 5 to 0. Moore was in fine form and allowed but five scattered hits. He was well supported.

St. Louis	000 000 000	0	5 2
Philadelphia	000 001 310	5	7 1

Lush and Bresnahan; Moore and Doin; time 1:45; umpire Rigler.

Chicago, Aug. 20.—Chicago pounded Barger for 14 hits and 10 runs in six innings today and defeated Brooklyn easily 11 to 2. Reulbach was invincible after the first inning.

Brooklyn	200 000 000	2	3 2
Chicago	500 032 10x	11	16 1

Barger, Crailble and Erwin; Bergen, O. Miller; Reulbach and Kling; time 1:45; umpires O'Day and Brennan.

Cincinnati, Aug. 20.—Cincinnati won an interesting game from New York here this afternoon by a score of 3 to 0. Two errors in the second inning gave the locals their first run, while three hits in the eighth with Crandell pitching added the other two. Manager Griffith of the Cincinnati team was benched for disputing a decision.

New York	000 000 000	0	5 2
Cincinnati	010 000 02x	3	8 0

Ames, Crandall and Schlei; Suggs and McLean; time 1:45; umpires Klem and Kane.

ITALIAN AVIATOR KILLED.

Lieut. Vivaldi, First Victim in That Country—Deep Sorrow.

Rome, Aug. 20.—The death of Lieut. Vivaldi, who was killed today by a fall from his aeroplane, has caused deep and general sympathy, he being the first Italian victim of aviation.

Lieut. Vivaldi was a member of a noble Genoese family and had the title of Marquis. He was a brilliant cavalry officer. He took his certificate as an aviator at Chalons Sur Murne, and having purchased a Farman biplane, made his first flight with it today. He was accompanied by Lieut. Savoia, one of the Wright pupils.

Vivaldi was returning alone to Rome when the accident to his machine occurred. It is believed that the motor stopped on account of lack of petrel and the aviator, not yet an expert at planing, lost control of the machine. He fell from a great height and was badly crushed.

ACROSS LONG ISLAND SOUND.

Clifford B. Harmon Wins the Coveted Prize.

Greenwich, Conn., Aug. 20.—Clifford B. Harmon, of this place, business man and amateur aviator, late today made the first flight across Long Island sound in a heavier-than-air machine, and within a half hour of the time of landing was eating dinner at the home of his father-in-law, Commodore E. C. Benedict. His flight was not looked for, and the only person to greet him on his arrival was his wife, who had watched his flight through a telescope from her father's house.

Mr. Harmon escaped without a scratch, but his machine, which on landing ran some distance into a clump of tall grass and weeds, was damaged, the chassis being broken. Harmon started his flight from Garden City at 6:30 and landed in Greenwich at 7:05, covering a distance of about 28 miles.

At the start of his journey Harmon had a 15-mile wind at his back which increased to 25 miles an hour and inflicting over Hempstead Bay where he encountered cross currents that caused him some trouble. Over the sound he varied the height at which he flew from 400 to 1,000 feet, dropping nearer the ground as he neared the Connecticut shore.

By making this flight Harmon becomes the owner of a $2,000 cup offered for the first flight across Long Island sound.

BRIGHTON BEACH RACES.

Patschke and Poole Winners With Stern Car—Events.

Brighton Beach Motordome, New York, Aug. 20.—The Stearns car driven alternately by Cyrus Patschke and Al. Poole, broke the track record here tonight and easily won the 24-hour automobile race began at 8:30 last night. The new record established was 1,253 miles as against 1,196 miles made by a Lozier car last October.

An accident to the Matheson car gave the Stearns the lead. Patschke and Poole were never again headed.

The 8:30 P. M., or 24th hour score in the 24-hour automobile race was: Stearns, 1,253 miles; Matheson 1,178 miles; Houpt-Rockwell, 964 miles, and Cole, 905 miles.

The former track record for 24 hours was 1,196 miles, made by a Lozier car last October.

A. A. A. AND BOYS' BRIGADE.

Eleven Innings to a Standstill Yesterday Afternoon—Features.

The Wilmington Amateur Athletic Association played a picked team from the Boys' Brigade, the A. C. L. and the Y. M. C. A. eleven innings to a standstill at 17th and Princess streets yesterday afternoon. The features were the pitching of Tom Walker and the catching of Watson, while the home runs of Walker and Zellers and the rooting of "Capt." Swann were also sensational. The same teams will play again in the near future and they hope for a conclusion. The game yesterday afternoon was called on account of darkness.

Wrightsboro Team Won Game.

In an exciting and interesting game of baseball, Wrightsboro defeated Rocky Point yesterday by a score of 4 to 3 on the latter's diamond. The teams put up a good exhibition of the sport and it was quite a victory for the Wrightsboro nine. The pitching of Janichi and the batting of King, were features for Wrightsboro, while Peaden played a pretty game for the home team. The batteries were Janicki and Eason for Wrightsboro and Peaden and Lane for Rocky Point. The Wrightsboro nine returned to the city last night.

"ANTI-TOXIN FIENDS."

Surgeon so Characterizes Persons Obsessed With Idea of Infection.

New Orleans, Aug. 20.—"Anti-toxin fiends," is the name applied to certain persons by a surgeon in charge of a local hospital. "With an almost imperceptible scratch," the physician said, "scores of people apply at the hospital for the anti-teteanus treatment. Precaution is a good thing, but baseless fears may become monotonous."

AGAINST SPEAKER CANNON.

Congressman Humphrey Explains Why He Opposes Cannon.

Seattle, Wash., Aug. 20.—Congressman William E. Humphrey, one of the staunch supporters of Speaker Cannon in the House, said tonight that he would not vote for the re-election of the Danville Congressman as Speaker. Mr. Humphrey is being opposed for re-election by the insurgents of his district.

The Congressman says: "Press dispatches in the last few days have announced that Mr. Cannon had announced that he will be a candidate for the Speakership in the next House of Representatives.

"I do not believe he will be. I have waited several days for an authoritative denial from him, but he has not seen fit to make one. This action on the part of Mr. Cannon, which I regret very much, makes me feel that it is my duty to state publicly that I think it is not to the best interests of the Republican party for Mr. Cannon to be a candidate for Speaker of the sixty-second Congress, and if he is, that I shall not support him.

"There is a strong public sentiment, just or unjust, against his re-election as Speaker. I cannot believe it would be to the best interests of the Republican party to again elect Mr. Cannon to the speakership."

A RIOT THREATENED.

Mine Workers Have Warm Time During Convention.

Indianapolis, Ind., Aug. 20.—In a fight that threatened to develop a riot in the convention of the United Workers tonight a delegate from the southwest was struck on the head with a soda bottle and his scalp cut. His friends hurried him from the hall.

Debate on a substitute, submitted by William Green, of Ohio, to the special committees report had continued since early last evening and had been marked by many personal clashes. The especially violent outbreak in which a delegate was injured had a quieting influence and the convention settled into a filibuster with no prospect of reaching a vote.

The principal point at issue was whether or not the organizers employed by President Lewis and the International Executive Board should be dismissed.

SHO FROM AEROPLANE

Bullet Missed Its Mark—Centers Drove Machine.

New York, Aug. 20.—Lieutenant Jacob E. Fickel, a crack shot of the 29th infantry, seated in an aeroplane 60 feet up fired at a target 60 feet below him at the Sheepshead aviation meet today. He miss. The bullet went six wide of a ten by ten canvass target placed in the center of the field. However, Lieutenant Fickel is confident that good shooting can be done from aeroplanes," although he said at the height maintained today would be an easy mark for a sharp shooter below.

Glenn H. Curtiss drove the aeroplane from which the army test was made.

AFTER CANNON'S JOB.

Believed That Congressman Smith is Seeking Speakership.

Des Moines, Iowa, Aug. 20.—In a statement made to the Register and Leader, Walter I. Smith, Congressman from the ninth district, declared that he did not favor the re-election of Speaker Cannon.

Congressman Smith gave as his reason as the fact that his district announced and endorsed his own candidate to the speakership at the Republican State Convention. Because of his attitude politicians are inclined to believe that Mr. Smith is an avowed candidate for the position.

Jackson, Miss., Aug. 20.—Practically complete returns from the Democratic Congressional primary held today in the second district give H. D. Stephens, of New Albany, a plurality of approximately a thousand votes over Captain Thomas Spight of Ripley.

MONEY FOR MILITIA

New York Gets $206,000—More Available For Equipment.

Washington, Aug. 20.—Every State and Territory in the Union, with the single exception of Nevada, which is without a militia, gets a portion of the Federal appropriations for the purpose of supplies and ammunition for the organized militia during the present fiscal year, in the first allotment of the $1,600,000 fund. The War Department has reserved about $400,000 of the fund for emergencies.

According to the allotment, which was made according to the enlisted strength of the organized militia in the various States, five States get more than $50,000 each. Of these, New York leads, with $206,000; Pennsylvania follows, with $140,000; Illinois, with $84,000; Massachusetts, with $78,000; Ohio with $73,000 and New Jersey, with 54,000. Of the others, Alabama, California, Connecticut, Georgia, Indiana, Iowa, Kentucky, Maryland, Michigan, Minnesota, Missouri, North Carolina, South Carolina, Tennessee, Virginia and Wisconsin each gets more than $25,000. Utah ends the list with only $14,000.

The department also has allotted $2,000,000 more to the States and Territories on a basis of representation in Congress for arms, equipment, camp purposes and promotion of rifle practice in the militia organizaztions.

DEAVER-TAYLOR TRAGEDY.

Murphy Physician, Who Shot and Killed Relative Sentenced.

Asheville, N. C., Aug. 20.—The final chapter to the Deaver-Taylor tragedy at Murphy this State, was written this afternoon at that city, when Dr. J. R. Deaver was found guilty of manslaughter and sentenced to seven years hard labor in the State penitentiary.

Dr. Deaver shot and killed his brother-in-law, N. B. Taylor, in 1902 the shooting, it is said, being the outcome of domestic strife. Deaver made his escape and succeeded in eluding capture until last July, when he was caught in Kansas and brought back to Murphy for trial. He has a wife and four children.

Lake Geneva, Wis., Aug. 20—Charles Evans, Jr., of Edgewater defeated Walter E. Egan of Exmore today in the finals for the Lake Geneva cup in the longest game ever recorded in a golf tournament in the west. The contest reached the forty first green before the return of victory.

5,000 yards of black diamond chambray, the 12 1-2 cent grade, in three to 10 yard lengths, 9 cents at Gaylord's. **

A BENEFACTOR OF HIS RACE

Charles Goodyear Discoverer of Process for Vulcanizing Rubber and What His Invention Has Wrought for Humanity.

Special Star Correspondence.)

New York, Aug. 18.—Fifty years ago last July Charles Goodyear, discoverer of the process for vulcanizing rubber, died in the City of New York. Although he bequeathed to the world one of the greatest secrets of the age, to which it is indebted today for one of its most profitable industries, so far as personal emoluments are concerned, he left it poorer than the day he entered it.

Of all that contemperaneous group, which included Prof. Samuel F. B. Morse, inventor of the telegraph, Elias Howe, inventor of the sewing machine and Cyrus McCormick, inventor of the reaper, his was a singularly adverse career even up to the end. While potentates vied with one another to do him honor, unlike the others, notably Elias Howe, whose income for a time was estimated at $4,000 a day, Goodyear derived comparatively no material benefit from his great discovery and died heavily in debt. Robbed of the benefits of his discovery by manufacturing pirates who refused to pay him a royalty for the use of his process, which most of the governments of the earth encouraged by declining to afford him protection, and defrauded by business associates who took advantage of his confiding, credulous nature, his lot was a peculiarly unfortunate one. There is a strong indictment of the past ingratitude of his fellow countrymen in the announcement just made in New York that after half a century of silence, it is now proposed, in recognition of his service to humanity, to perpetuate his memory by the erection of a memorial commensurate with the importance of his achievement, as a tribute from the generations he has benefited.

No more pathetic narrative can be found in the history of modern inventors than the life story of Goodyear. Thrust into jail time and again for debt, often with nothing to eat, his sickly wife and five little children threatened with eviction, a dead child on his hands and no money to pay for its burial, the butt and ridicule of his fellows, and with every human face averted from him, his steadfast devotion to the problem he had set out to solve in the face of the most insuperable obstacles, was inspiring. Nothing discouraged him. In the solitude of his prison cell in Philadelphia, into which he had been thrown as a bankrupt, he worked on, undaunted, with the enthusiasm that only a genius can bring to his support in trouble, with a determination that would never recognize defeat. His position in these times is tritely described by one of his friends who said of him: "If you see a man with an India rubber coat on, India rubber shoes and India rubber cap and in his pocket an India rubber purse with a cent in it, that is Goodyear."

But for this stoical, heroic zeal rubber would never have attained to the state of world wide usefulness it has today in arts and industries. Until he discovered his process for vulcanizing this nowadays indispensable staple, it had little or no commercial value. The natives along the Amazon made crude bowls and odd looking water vessels out of it but as these could endure neither the extremes of heat nor cold the world looked upon them as objects of curiosity only.

How many million lives he has saved through his discovery, which made possible the manufacture of rubber shoes and rubber coats to ward off the ravages of the storm, no one will ever know. In this respect probably no man who ever lived has proved a greater benefactor to the human race. In various industries in which it is employed today $300,000,000 worth of crude rubber is said to be used annually in one form or another for manufacturing purposes. As the whir of McCormick's Yankee reaper is heard around the world today, so is the whirl of the rubber tired automobile and the rubber tired runabout, one of the numerous ramifications of the great industry developed as a result of the discovery of this spare boned, half starved, earnest New Englander who suffered and struggled that posterity might benefit by his work.

GREAT HOME COMING.

Names of North Carolinians Dispersed Abroad Are Wanted.

Raleigh, N. C., Aug. 20.—Thousands of North Carolinians have migrated to all parts of the country. This State has played a great part in the winning of the West and in the development of all sections. North Carolina virility, pluck and ability have proved notable factors in many other States. People from the Old North State have set their mark everywhere but have never lost their love for their mother State, North Carolina. Complete arrangements have been made for a great "Home Coming Jubilee and Reunion" for all persons born in North Carolina; this to be held at Raleigh during the fifteenth State Fair, October 17th-22nd. Mayor J. S. Wynne is chairman and Fred A. Olds secretary of the committee which has this matter in charge and they desire to obtain the names and addresses, as far as possible, of any people from this community who now reside in other States, in order that invitations may be sent them.

WEEKS AFFAIRS AT LUMBERTON

Republican Newspaper May be Launched—Teachers' Institute—Domestic Complication—Blind Tigers Hard Pressed.

Lumberton, N. C., Aug. 20.—We are authorized to say that unless something unforeseen happens to change the plans, Lumberton will, in a very short time, be the home of a new newspaper, to be Republican in politics. Col. S. A. Edmund is the promoter. The report has been circulated that the Star correspondent would be the editor, but the said correspondent has got sense enough to know that he is not competent to fill a position of so much responsibility, even if he was so inclined. He may have charge of the mechanical department and also do some local work, but will have nothing to do with shaping the policy of the paper, neither will it have anything to do with its politics. He will, however, do all in his power to make the paper interesting, and at the same time attend to his regular duties in other things.

The Teachers' Institute, which has been in session here this week, is said to be the best that has ever been held in the county. The attendance is good, nearly every teacher in the county being present, except those who have attended Summer schools at other places.

Mr. A. W. Peace, the popular cashier of the Bank of Lumberton, has extended an invitation to the teachers to visit that institution Monday, when they will have the different features of banking explained to them. It is useless to say that it will not require a second invitation because the teachers are taking great interest in anything that will give any information and be of service to them in their work. Robeson has as competent a set of public school teachers as can be found anywhere.

The morning session of Justice McNeill's court Thursday was sufficiently interesting to draw quite a large crowd. While only three lawyers were employed, several other members of the bar were present as spectators. Two hours or more was consumed in trying to affect a compromise between Mr. A. B. Moore and his wife, Mrs. Sarah Fleet Collins Moore. They were married four or five years ago and have separated that many or more times. They recently conducted a cook shop at the foot of the wooden bridge and it seems purchased their supplies from Mr. L. H. Caldwell. They recently deposited some money with Mr. Caldwell, which was credited in the wife's name. A few days ago Sarah left again and the husband wanted to get the cash, but as it was in his wife's name, Mr. Caldwell wisely concluded to let the law say who should have the money. Both parties claimed it, but when the complications arose it took the lawyers to straighten things out. Dr. R. M. Norment took a part in the affair trying to make peace, and finally the case was compromised and the money divided, a small amount due Mr. Caldwell being taken out. As soon as the matter was adjusted the witnesses made an effort to get the estranged couple re-united in marriage, but the man said nay and the woman said nay. It is expected they will be married and living together again not later than tomorrow night at furthest. Another case was where an 18-year-old boy entered the field of Mr. Jeff D. Taylor and appropriated a watermelon to his own use, eating what he desired of it and leaving the balance. The defendant stated that Mr. Taylor seemed to have plenty of melons, many of which were ruining and he did not think Mr. Taylor would care if he took one. Mr. Taylor asked the court to be as lenient as it could, as all he wanted was to make an example of the young man. Defendant discharged on payment of costs amounting to $1.95. Dear melon that.

The work of remodeling the big department store of Messrs. White & Gough, is now being rushed as fast as possible. The front brick wall has all been removed and the material for putting in the new stone, glass and steel front is ready to be put together. A false wooden wall was put in a few feet from the front to protect the store and everything goes on inside just as though no changes were being made. A watchman is kept on duty at night while the work is in progress, and it is said that he had a visitor the first night he was on duty in the person of a well dressed young man about town who called about midnight, but when he was asked what he wanted he found he had made a mistake and gotten into the wrong building.

George Norment, a young colored man, who has been suspected for some time of taking care of a blind tiger, was landed in jail Thursday night with what the officers say ample proof to convict. They have been keeping an eye on George for some time, but he was sharp enough to keep them watching several days and nights before being caught right at it. Others are making their way to jail by the same route and if they continue on their course they'll soon be behind the bars. Bottle toters just as well get busy and hunt other work or make up their minds to work on the public roads.

The business of the Freeman Printing Company has outgrown itself and has been forced to increase its power. A new five horse power engine was installed this week, taking the place of the two horse power which has done service for the past five or six years. The new engine was put in by the McAllister Hardware Company under the personal supervision of Mr. W. P. McAllister, manager for his firm. The Freeman Company now has sufficient power to run all their machinery on full time without any dragging.

If this section of the country don't soon be coupled up with the world by telephone it will not be the fault of the telephone people. Mr. J. C. Branch local manager here, and Mr. E. T. Sheftall, from Atlanta, are now engaged in showing the farmers all through the country the advantages of the telephone and are offering great inducements. All a person residing in the country has to do is to construct his line to within one mile of town and buy his own phone, and then pay the company 50 cents per month for the service. Robeson county farmers are going to get the cotton market every morning before they start to market. If it's off, no cotton comes, if it's up they'll sell if they wish. That is one of the most reasonable propositions we have heard of.

The wreck on the V. & C. S. has not yet been cleared, but a track was constructed around the derailed cars, and while everything had to be transferred at the scene, every passenger train was operated very nearly on time. No freight was received here on the day of the wreck and none was carried out yesterday, but Supt. Russell said this morning they expected to catch up with everything today. The Coast Line would not send a wrecking crew so far from their own line, and the Seaboard charged so much that the V. & C. S. people decided to do the work themselves even if it does take more time. Two of the three derailed coal cars will have to be unloaded before being replaced and then reloaded. None of the wrecked cars are damaged to any extent.

Next Friday, August 26th, is expected to be a great day for education in Lumberton. On that day the Farmers' Union will have a great educational rally here, at which Prof. J. B. Carlyle, of Wake Forest, will be the principal speaker. Prof. Carlyle is a native Robesonian, whom the whole county loves to honor, and the simple announcement that he will speak here next Friday is enough to insure a great gathering of those who are interested in the cause of education.

Mr. D. W. Crump, of the firm of Crump & Floyd, will soon be claiming the prize for the champion hog raiser in this section if he has no bad luck. He owns one breed sow which is the mother of 31 fine healthy pigs in 13 months, the first 13 being July pigs last year, the next nine February, and the last nine the present month. Mr. Crump raises the Poland China stock and he, like hundreds of other people in this section, is convinced that it pays to raise the best of all kinds of stock.

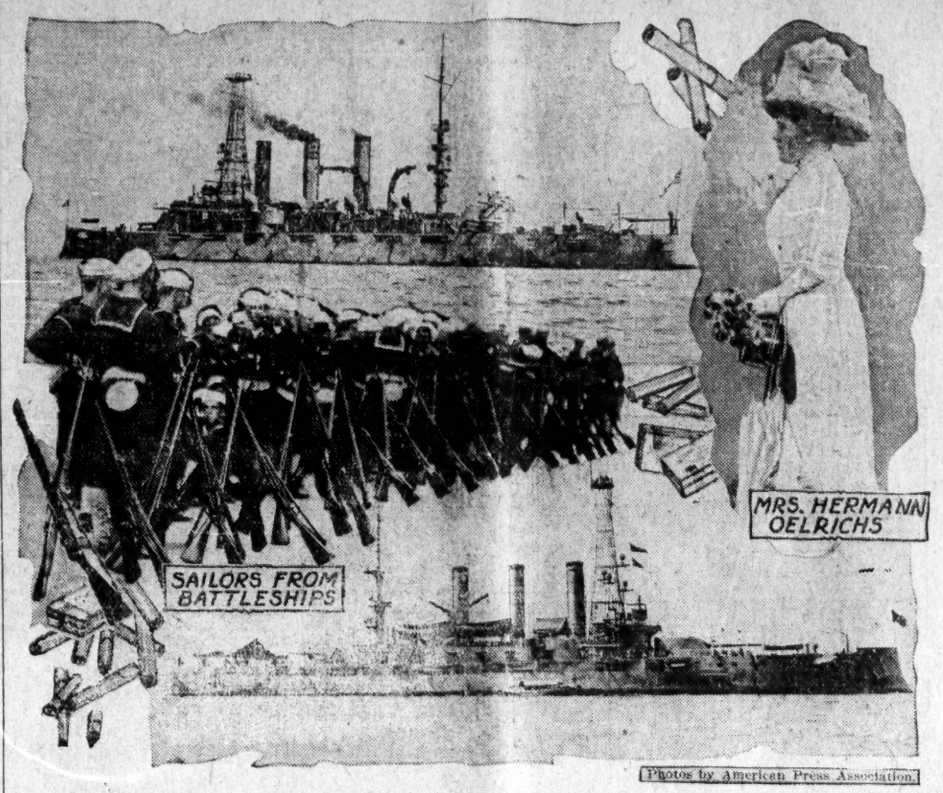
A traveling man who spent a day here this week made the statement just before leaving that he had a "good day here—had sold two flying machines." It was the opinion of those who heard the witty remark that he was distributing free, large samples of hot air which were disgusting in the extreme.

Mr. L. H. Trogden arrived this week to fill the place made vacant by the removal of Mr. W. B. Hiltown to Middendorf, S. C., where he was made agent of the Seaboard. Mr. Todd formerly second trick operator, is now first, Mr. Trogden second and Mr. McMillan third.

The wreck on the V. & C. S. Thursday caused all sorts of trouble. The freight engine remained on the track and after the passenger transfer was made at the wreck, came on to town. The V. & C. S. people then borrowed a passenger coach from the R. & C., to be returned in time for the Marion train to go out yesterday morning. When the V. & C. S. came in yesterday morning and was shifting in the yard, the switchman left a switch open and he engine went off on the

(Continued on Page Ten.)

Society Woman Gives Sailors Thousands of Cigarettes



Photos by American Press Association.

Newport, Aug. 20.—Two thousand four hundred packages of cigarettes are ready for distribution among the sailors of the north Atlantic battleship fleet, now at anchor here. The little smoke producers are the gift of Mrs. Hermann Oelrichs, who also made many of the arrangements for the entertainment of the sailors and officers of the fleet while it is anchored here. The cottagers subscribed $10,000 for the further pleasure of their guests. Dances, dinners, receptions and clambakes are upon the daily programmes, and vaudeville performances will be given nightly.

RHODY'S NATIVE BANQUET

Primiteve Feasts Fit for the President at Atlantic Deeper Waterways Association at Providence Last This Month.

The news that a real Rhode Island clambake is to be given to the Inland Waterways convention to be held at Providence the last of August has aroused all New England. Cooks, amateur and professional, have already begun to send in suggestions the gist of all which seems to be the plea that the old Indian method of baking the clambake in seaweed be followed. This advice is quite safe, of course it will.

One old seashore farmer last week invited some of the officials who are to help entertain the Waterways convention delegates to his farm for a genuine old-time bake as he knew it, handed down from his ancestors, one of whom was a famous Rhode Island captain in the days of fighting frigates.

The dinner was baked in rock-weed gathered from Narragansett Bay. The cooking was done in the apple orchard south of the house in the shelter of a stone wall. A big iron frame on posts held the dinner during process of cooking. First came a two-inch layer of rockweed, then a big bed of Rhode Island clams covered with a cloth. Then came a layer of onions, then a layer of white potatoes, then a layer of sweet potatoes, then a layer of portions of fresh blue fish each wrapped in a small paper bag, then a layer of green corn, and finally a thick covering of more rockweed surmounted by a blanket of wet canvas.

Under the frame was built a roaring fire of native oak and chestnut logs, and for a couple of hours the dinner simmered and sizzled in its seaweed bed. Those officials who were treated to this clambake, spread steaming under the apple trees, spoke enthusiastically of the elusive flavor that the seaweed gave the viands—like nothing else beyond the reach of Narragansett Bay.

It may be objected that this is not quite the way that the Indians managed a clambake for their own big chiefs, and there are many loyal Rhode Islanders who regard any departure from the primitive method as little short of sacrilege. Captains of the Colonial Navy may have had iron frames on posts, and nice little paper bags to put the blue fish in, but Big Chief Canonicus had never used such new fangled devices and certainly never needed them.

His expert chefs, who so far as we know catered to the perfect satisfaction of the first families of Rhode Island, built up from big cobblestones, pedestals or disks about the size of a cart wheel. On these stones they built a bonfire and the bonfire heated the rocks until they were as hot as a Washington pavement on an August day. Then the embers were all raked off and the sizzling hot pedestal was ready to receive its sacrificial pile of clams and fish and corn, with wet seaweed above and below to furnish the steam and give the flavor. In lieu of paper bags to wrap the fish in, there were plenty of big green leaves from the neighboring trees. By the time the stones were cool, the "bake" was ready.

"You may praise your big kettle bakes, or the ones made on iron frames like your great grandfather of the fighting frigates used to make, or you may boast of your 'barrel bake' which is nice and compact and better adapted to the suburban back yard," says the purist in clambakes, "but if you want to put out the real thing in the clambake line in just the way your aboriginal predecessors did it, you will use no man-made fixtures at all."

IOWAN MAYOR OUSTED.

Ottumwa's Executive Unseated by Court Order on Various Charges.

Des Moines, Ia., Aug. 19.—Judge K. E. Wilcocksen, at Sigourney, today handed down an opinion ousting Thomas J. Phillips as Mayor of Ottumwa, Ia.

At the trial of the Mayor held recently, it was claimed the official was guilty of wilful neglect of duty in permitting resorts and gambling houses to run; also that he was intoxicated on April 30. On both of these charges the court finds the mayor guilty. A third charge that the mayor is dishonest was dismissed.

Mayor Phillips is a leading Democrat and was a candidate for Governor some years ago.

Richmond, Va., Aug. 19.—The New Yark American baseball club bought Pitcher William Ryan, of the Norfolk, Virginia league team, today. Scout Arthur Irwin bringing about the transaction.

NEW SOUTHERN INDUSTRIES

Some of the More Important Announcements in This Week's Issue of Baltimore Manufacutrers Record—Much Capital.

(Special Star Correspondence.)

Baltimore, Aug. 20.—Among the important Southern industrial and other developmental announcements in this week's issue of the Manufacturers' Record are the following:

Citizens' Light, Heat & Power Co., Mobile, Ala., closed contract for the engineering and construction required for additional facilities, to cost $500,000 and plans an extension for transmission lines at a cost of from $100,000 to $200,000.

National Lumber & Creosoting Co., Texarkana, Ark., decided to build a two-cylinder creosoting plant costing $125,000 at Houston, Texas.

International Sugar Feed Co., Memphis, Tenn., began the construction of a $250,000 plant that will include an eight-story factory and two warehouses of reinforced concrete construction.

Southern Bell Telephone & Telegraph Co., Atlanta, Ga., accepted plans for erecting a six-story reinforced concrete construction exchange and office building at Norfolk, Va., the cost to be $200,000.

Pocomoke Guano Co., Norfolk, Va., secured 71 acres of land at Columbia, S. C., as site for a fertilizer factory to cost probably $150,000.

Jasper Cotton Mills, Monticello, Ga., will be organized with $200,000 capital stock to build a mill of 10,000 spindles driven by electricity.

George Y. Hunter and associates, Prosperity, S. C., will organize a company to build a 10,000-spindle cotton mill; cost probably 200,000.

Rock Hill Fertilzer Works, Rock Hill, S. C., was organized to establish a plant with a daily capacity of 100 tons of fertilizer.

Hambley Manufacturing Co., Salisbury, N. C., announced its plan to install 50 broad looms, etc., driven by electricity, on the production of mercerized damask.

Arcade Cotton Mills, Rock Hill, S. C., decided on a $160,000 increase of capital stock for installing new machinery, etc.

Ascension Red Cypress Co., New Orleans, La., purchased 300,000 feet of cypress timber and will build a double band mill in Ascension Parish, La.

Louisiana Petroleum Co., Shreveport, La., was incorporated with a capital stock of $750,000.

Nicholas Coal & Coke Co., Scotford, Va., was incorporated to mine coal and manufacture coke; capital stock is $100,000.

Congaree Fertilizer Co., Columbia, S. C., was organized with $80,000 capital stock; purchased 26 acres of land and will erect plant for manufacturing acid phosphate and fertilizer.

Wadsworth Red Ash Coal Co., Birmingham, Ala., was incorporated with $100,000 capital stock to develop coal lands.

Marion County Lumber Co., Ocala, Fla., was incorporated with $100,000 capital stock and will develop 40,000 acres of timber land; has purchased saw mill and will increase its daily capacity to 75,000 feet of lumber.

Consumer's Natural Gas Co., Birmingham, Ala., will be organized with $2,000,000 capital stock to construct pipe lines for distributing natural gas in the Birmingham district.

The cost of a Business Local is a small fee to pay for securing a good tenant

CARE OF THE UNFORTUNATES

The Beginning of North Carolina's Care of Consumptives—State Sanatorium for the Treatment of Dread Tuberculosis.

(By Prof. Wiley H. Swift.)

It is now more than five years since I first heard that North Carolina should care for her consumptives just as she was caring for her insane and her blind.

The idea was new to me, and he, who was pressing it seemed to me to be more of a dreamer than anything else. In fact, the whole subject became new to me. To treat consumptives with an idea of curing any great percentage of the patients was going far in hopes.

I had, up to this time, thought that consumption was either beyond cure, or that one had to go to the far West with a thousand chances of being brought back in a coffin. I knew that it was being treated in the western part of North Carolina, but I shared the general belief that consumptives went to the mountains or to Florida with at best the hope of pulling through the Summer or Winter. I knew that they were dying in those same mountains, and in the Everglades.

Here was a man who believed that consumption, incipient consumption, could be cured, and who was working out, well nigh independently, in North Carolina, the plan for bringing it about. In fact, his ideas were even then quite clear. He had his plans in those first conversations as he has them now. It was getting ready to be born then; it is being born now in the Tuberculosis Sanatorium, located at Montrose, Cumberland county, North Carolina.

The father of this sanatorium is its present superintendent, Dr. J. T. Brooks. So much as has been done, has been done by him, and to him, together, with his board of managers belongs very great credit for the excellent beginning.

To those of us who know of the beginning of this home for the treatment of consumptives it is wonderful. It is only another proof of the fact that a good idea will live.

In those first days we called the young physician an enthusiast; we came but little short of calling Dr. Brooks a crank. When he begun trying to work out his plans his friends called him a fool. Even since a part of the plant has been constructed and patients have been admitted his friends have told him that he is crazy to pour his life into his scheme.

The fact is, that the whole idea seemed to smack of the things not to be realized. Here was a young doctor with neither fame nor fortune. If his ideas were good, why had not some of the big fellows thought of them? Why were they not doing this very thing if they were good? Nobody except one lone little doctor had any great faith in his plans, and yet he could be neither argued nor laughed out of court.

I remember how he used to try to show me the absolute need of doing something. Said he, "Many of our resorts now publish notices that no consumptives will be taken. It will not be long before all resorts will be closed against persons with consumption. Now, where are they to go? They cannot stay at home except to die. Many cannot afford to take resort treatment. They can have little care at home, and no one wants them.

OF

RUGS

Our First Shipment of Rugs for Fall 1910 is now on display—Not less than fifty in sizes 9 x 12, 8³ x 10⁶ and 6 x 9, are now on the rack—No trouble to show them, Call and see these rugs whether you are going to buy now or later—The display will interest you.

Platt & Haar

AFFAIRS AT STATE CAPITAL

Fancy Stationery for Members of General Assembly—Several Charters, One for Wilmington—Features for State Fair.

(Special Star Correspondence.)

Raleigh, N. C., Aug. 20.—The Department of State has just placed the order for the stationery to be used by the members of the next North Carolina General Assembly to convene early in January. It includes such items as 40,000 letter heads and 15,000 envelopes for the use of the members of the house of representatives and 15,000 letter and 15,000 note paper and envelopes for the Senators. There are in addition special stationery for each of the various committees in the House and Senate. The latter will have to be printed later on. The orders just placed is for lithograph work.

The Fidelity Hosiery Mills Co., Newton, received a charter today, $125,000 capital by E. Morrison and others. There is also a charter of the Spencer Bros., Inc., Washington, for a mercantile business, $75,000, being the capital, and George A. Spencer the principal incorporator. Still another charter is to the Grossman-Mahler Architectural and Construction Co., Wilmington, capital $125,000, capital by E. F. Grossman and C. P. B. Mahler and others.

For the annual meeting of the North Carolina Confederate Veterans' Association which meets here on Wednesday evening of State Fair week, October 19th, President W. A. Graham, of the association, sends out special invitations to all veterans to attend. He wants every veteran in the State who is possibly able to make the trip to Raleigh, to come and also all veterans who can possibly do so who are now living in other States, but served in the Civil War as North Carolina troops.

The management of the North Carolina State Fair has been seeking to make arrangements for a full fledged aeroplane with expert in charge to give actual demonstrations of flight as a crowning feature of the coming fair. However, it developes that these flights can only be made where there are one mile instead of half mile race tracks, so the flying feature must be abandoned. However, a proposition is being considered from Glenn Curtiss, the famous aeronaut, for having a perfect machine here with an expert lecturer who will demonstrate the machine in every way except in the actual flights. This attraction may be arranged. In addition there are to be the finest balloon exhibitions the fair has ever had.

Formal demand was made by Robert Strong, as counsel, today on the city authorities for damages by the fire August 8th, that burned two residences and contents, through what is alleged to have been negligence on the part of the city authorities to have the city fire alarm in proper condition and require the Wake Water Co., to provide proper water pressure promptly.

SHOVING THE QUEER.

Young Man Arrested at Rocky Mount For Passing Bad Coin.

(Special Star Correspondence.)

Rocky Mount, N. C., Aug. 20.—Mr. John McFarland, a young white man was held in the city Recorder's court this morning under the rather serious charge of passing money, that was spurious, and from his statement it was evidently planned by him. The young man has been employed by the Atlantic Coast Line at their shops at South Rocky Mount for the past several months having come here from Norfolk, Va. After the hearing of the evidence in the case and a showing of the money in question, which was nothing other than a ten dollar Confederate note, the Recorder held that there was an abundance of probable cause and that the young man should be sent up to Nash court to await the next term of criminal session. His bond was fixed at $300 and he could not raise the money.

Last night the young man returned to the city by one of the hacks and as he got out of the carriage on the streets he tendered a ten dollar Confederate bill to Parrish Dixon, the colored hackman. Being at a point in the street that the money could not have easily been seen, the negro noted the denomination, and gave the young man all of the change less $3.00 and the amount charged for the trip, the negro not having enough money. The young man stated to the hackman that the remaining $3 might be given him at the Greek restaurant this morning an hour of meeting being named.

When the negro found that the bill was Confederate and no good he sought an officer and the young man was arrested. The young man was not drunk, nor made any appearance of having been drinking but he stated to the officer that he had given the negro a $5 bill instead of a $10 bill, and he claimed to know nothing about the spurious coin. This morning at court he testified that he had the bill in his pocket but gave it to the negro by mistake. His explanation in court was more of the nature to convict him than it was to clear him of the charge, and he told several stories of how he had come to pass the money. A falling into bad habits and with improper companions accounts for the trouble in which the young man now finds himself.

GAME AT BETSYTOWN.

Bladen Springs and Elizabethtown Played Interesting Game There.

(Special Star Correspondence.)

Elizabethtown, N. C., Aug. 20.—A very interesting game of baseball was played here yesterday between Bladen Springs and Elizabethtown, resulting 5 to 4 in favor of the latter. The features were the pitching of Byron Clark for Elizabethtown and the fine playing of young Hedrick, who brought in the winning run in the ninth inning.

To keep your health sound; to avoid the ills of advancing years; to conserve your physical forces for a ripe and healthful old age, guard your kidneys by taking Foley's Kidney Remedy. Robt. R. Bellamy.

MR. A. T. CLARK, OF BOLTON.

Petitioned by His Friends to Enter the Legislative Race.

(Whiteville News-Reporter.)

The undersigned neighbors and acquaintances of Mr. A. T. Clark wish in this manner to present his name to the Democrats of Columbus county as a man well suited to represent Columbus county in the next General Assembly.

We point with pride to his achievements. Born of humble but honest parentage some fifty-odd years ago in Columbus county, he has spent practically his entire life in the vicinity of his birth place; poor in means, but rich in ambition he began as a boy to develop those strong traits of character which in his manhood have become subjects of admiration by all who know him; denied, like many of us, the advantages of an education in his youth, he has, in the years which followed, burned the midnight oil and studied in the great school of experience, until today he stands out as a man of intelligence and sound judgment in his county.

As a Democrat he has from early manhood engaged in working for his party, seeking no office for himself. He knows the needs of his county. He is both a successful business man and farmer and the Democracy will make no mistake should he be chosen for a seat in the Legislature.

H. A. Smith, J. W. Haylor, J. T. Weeks, G. H. Weeks, J. J. Weeks, A. W. Carroll, W. T. Mottinger, John Innes, M. E. McNeill, C. F. Ashley, D. W. Merritt, F. F. Hasty, W. M. Hocutt, C. M. Ward, K. W. Powell, F. B. Slaght, G. S. Gillespie, J. W. Wilson, A. T. Frink, A. C. Holton, S. G. Floyd, G. O. Meyer, Harry S. Allen, H. A. Lynch, F. W. Corse, C. E. Clark, E. F. Carpenter, Geo. G. Wharton, J. K. Peterson, C. W. Harrelson, C. A. Ashley, R. D. Beard, S. A. Smith. **

GORE TO SPEAK IN DURHAM.

Oklahoma Senator Will Visit North Carolina in September.

Durham, N. C., Aug. 18.—The Elks have received through their Exalted Ruler, W. G. Branham, a letter from Senator Thomas P. Gore, of Oklahoma, in which he accepts the invitation to address the people of the city under the auspices of the Elks at an early date, perhaps in September. Senator Gore is an enthusiastic Elk, in addition to which he is one of the most eloquent men in the country. The date of his coming will not be announced until next week, but it is expected to me sometime in the next month, perhaps about the middle. At the announcement of the date the subject is also to be disclosed. The coming of the Senator isn't announced as an aid to that proposition, but it will be pretty nearly contemporaneous with an agitation for the Elk's home, an institution that the order has declared for. It is an uncommonly flourishing lodge, has oodles of money and no debts. It is very much alive on the proposition to build a home.

NASH REPUBLICANS.

Convention Follows Caucus at Nashville—Former Democrats Named.

(Special Star Telegram.)

Nashville, N. C., Aug. 20.—The Republicans met here today and after a two hours' caucus in a private hall, met in convention in the Court House, elected a central committee with John C. Mathews as chairman, and after motion to adjourn had been made and seconded, upon motion of Bernard Brooks, Esq., a recent recruit, endorsed R. A. P. Cooley, defeated in the Democratic primary this year for solicitor, for Congress in the Fourth district; endorsed J. A. Farmer, of Wilson, defeated two years ago in the Democratic primary for representative, for solicitor; endorsed Jas. R. Gaskil, referee in bankruptcy, for judge in this district, and John Dawes recently a Democratic Senator, for the Senate this year. Friends here say Mr. Dawes will not stand for the action of the convention today.

All motions of endorsement were made by Brooks. The naming of a county ticket will be left in the hands of the central committee. After Brooks had made himself famous by having the convention endorse four men, Mathews moved that Brooks be made a member of the central committee so he would be in position to name all other candidates, but the chairman who is candidate for the Spring Hope postoffice as well as Mathews, ran a steam roller over the proposition and Brooks went down in defeat. The prospective candidates will be named by a committee of seven. It is presumed that Mathews will pass on the merits of the candidates, examine their wind, running qualities, look out for spavin, etc.

PERFECTLY MOULDED FIGURES.

Another Medical Discovery.

To get out of condition is detrimental to beauty of form as well as to health. There is a certain flabbiness which robs a good figure of charm and grace. Those who are beginning to grow fat rapidly are never in the pink of condition.

But here medical science has slipped in with a very wonderful remedy—one which not only restores a perfectly moulded form but renews health and strength. We give the recipe in full for the benefit of our stoutish friends: 1-2 oz. Marmola, 1-2 oz. Fluid Extract Cascara Aromatic and 3 1-2 oz. Peppermint Water.

Any druggist will make up this prescription, or supply you with the ingredients which you can mix yourself. The dose is one teaspoonful after each meal and at bed time.

The great virtue of this harmless remedy is that whilst the excess fat is being expelled, the person under treatment has a healthy appetite and does not need to study dietetics or go in for tiresome exercises. The whole system is "refreshed" and re-invigorated, the glood renewed and muscular development restored.

On the Seaboard Mountain Special you will see "Vistas of forest clad summits, rock crests and distant mountain ranges; dizzy heights and deep shadowed gorges." Don't miss

The subdivision of the Chadwick Farm, one mile east of Wilmington, is into 3, 5 and 10-acre farms and will be sold at auction August 23rd au 20tf

Go to Blowing Rock, 4,500 feet above your beach. Get cool. The Seaboard Special, August 23rd, is the way to get there. Call up Mr. Fetter. He will tell you all about it. **

HARPOON WINS TAFT CUP.

Finished First in the Four Races With the Spaniards.

Marblehead, Mass., Aug. 20.—The President Taft cup, the principal trophy in the International Sonder Yacht race between America and Spain was won today by the Harpoon owned and sailed by C. F. Adams II., treasurer of Harvard University. Although it required three victories to secure the cup the Harpoon actually finished first in all four races of the series, losing one race by voluntary disqualifying herself on a foul.

The Beaver owned by C. H. V. Foster, was the second boat in today's race, finishing two minutes and seven seconds behind the Harpoon, while Guy Lowell's Cima came in two minutes later. The Chonta, the leading Spanish boat, was two miles behind when the Harpoon finished and the Mosquito II and Papooes were still farther astern.

President Taft saw the race from the Presidential yacht Sylph. After the leaders had crossed the line, the President's yacht joined the Harpoon and the flagship Emerald in awaiting and saluting the Spaniards as they came in from 22 to 27 minutes later.

The Beaver, Cima and the three Spanish yachts will race on Monday for the Governor Draper cup, but the trophy lies between the Americans. The Beaver has already secured 20 points toward this cup.

ATLANTA'S POPULATION GIVEN.

Increase of 72.3 Per Cent Compared With 1900—St. Louis Population.

Washington, Aug. 20.—The population of Atlanta, Ga., is 154,839, an increase of 64,967 or 72.3 per cent., as compared with 89,872 in 1900.

The population of Waterbury, Conn., is 73,141, an increase of 27,282 or 59.5 per cent. as compared with 45,859 in 1900.

The population of St. Louis, Mo., is 687,029, an increase of 11,791, or 19.4 per cent. as compared with 575,238 in 1900.

AFTER DOCTORS FAILED

Lydia E. Pinkham's Vegetable Compound Cured Her

Knoxville, Iowa. — "I suffered with pains low down in my right side for a year or more and was so weak and nervous that I could not do my work. I wrote to Mrs. Pinkham and took Lydia E. Pinkham's Vegetable Compound and Liver Pills, and am glad to say that your medicines and kind letters of directions have done more for me than anything else and I had the best physicians here. I can do my work and rest well at night. I believe there is nothing like the Pinkham remedies." — Mrs. Clara Franks, R. F. D., No. 3, Knoxville, Iowa.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

For thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills, and suffering women owe it to themselves to at least give this medicine a trial. Proof is abundant that it has cured thousands of others, and why should it not cure you?

If you want special advice write Mrs. Pinkham, Lynn, Mass., for it. It is free and always helpful.

S. S. S. THE REAL CURE FOR SCROFULA

Scrofula is a blood disease manifested usually by an ulceration of the glands. It is almost entirely hereditary in its origin, being the seeds or dregs of some specific blood poison which has been transmitted, in modified form, to the offspring of diseased parentage. Where the blood is specially vitiated Scrofula attacks other portions of the system beside the glands, and we see its effects frequently in weak eyes, poorly developd bodies, running sores and ulcers, skin diseases like scaldhead, catarrhal troubles etc. While the young are the usual sufferers from scrofulous troubles, it is true that it is sometimes held in check until middle life is reached, or passed, and then, as the physical system begins to decline, older persons are attacked by the disease. S. S. S. is the one real and certain cure for Scrofula. It is a blood purifier without an equal and it cures this destructive blood poison by removing the germs from the blood and so enriching and building up the circulation that the disease can not remain. S. S. S. searches out every taint and impurity from the blood; it gives to the blood the richness and power necessary to the healthy growth of children, and it strengthens and invigorates the constitutions of older persons, by its fine tonic effects. S. S. S. is a purely vegetable medicine, perfectly safe for young or old. Scrofula being a blood disease can only be cured by a blood purifier like S. S. S. Book on the blood free to all who write and request it.

How to Own The Oliver Typewriter For 17c a Day

You don't have to draw on your Bank Account when you pay on the Penny Plan.

You need not disturb your Dolltrs. Keep them at work earning interest!

We offer our newest model, the Oliver Typewriter No. 5—fresh from the factory—for Seventeen Cents a Day.

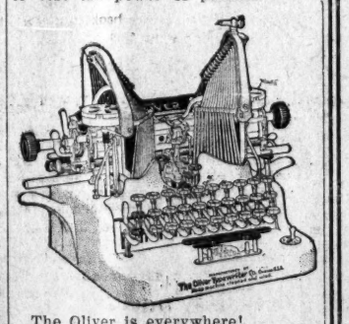
The plan is printed in "black and white" on the Application Blank below.

Simply fill out the blank, attach the small first payment, send it in, and on comes the Oliver!

No tedious wait! No red tape! No long-drawn-out correspondence!

You quickly own your Oliver and scarcely notice the outlay. You can have the use of your machine while pennies are "paying the freight."

You will never have a better chance to test the power of pennies.



The Oliver is everywhere!

It's the universal typewriter. Reels off real work with the ease and speed demanded by this mile-a-minute age. Wherever you turn—in Business in Offices, great or small—in the quiet of the Home—in the roar of the Railroad and Telegraph service—in the seething maelstrom of modern Newspaperdom—in countless kinds of service—it's the sturdy, strenuous Oliver that's "making the wheels go round."

The OLIVER Typewriter

The Standard Visible Writer.

You need your Oliver now. It's yours almost for the asking. The biggest hundred dollars' worth in America—for Seventeen Cents a Day!

Send along the Application Blank, with a small first payment of $15 as an evidence of good faith.

Your check is good—or send draft, postoffice of express money order.

THE OLIVER TYPEWRITER CO.
The Oliver Typewriter Bldg.
Chicago, Illinois.

APPLICATION BLANK.

THE OLIVER TYPEWRITER CO.

Gentlemen:—I accept your offer of the latest model No. 5 Oliver Standard Typewriter for Seventeen Cents a Day. Enclosed please find $15 as evidence of good faith. I agree to save 17 cents a day and remit the balance, $85, in monthly installments. Title to remain in your name until the machine is fully paid for.

GREATEST EVER WON

The Victory of Vaccination—The Battle With Smallpox.

The victory of science over smallpox through vaccination is one of the greatest sanitary victories ever won. Jenner, the discoverer of this method of prevention, is considered by many authorities the greatest benefactor of the race that ever lived.

Lord Macaulay, in his History of England, describing the disease in England before vaccination, wrote: "That disease, over which science has achieved a succession of glorious and beneficent victories, was then the most terrible of all ministers of death. The smallpox was always present, filling the churchyards with corpses, tormenting with constant fear all whom it had not yet stricken, leaving on those whose lives it spared the hideous traces of its power, turning the babe into a changeling at which the mother shuddered, and making the eyes and cheeks of a betrothed maiden objects of horror to the lover."

In the latter part of the eighteenth century and the early part of the nineteenth century one-tenth of all deaths in civilized countries resulted from this disease. Ninety-five per cent of the population of Europe had the disease at some period of their lives. Every year in Europe 400,000 deaths were caused by this "pesla magna."

Some countries have taken advantage of this great discovery; others have not had the faith in this truth necessary to save. It may be interesting to observe the effect of smallpox where vaccination is compulsory and where it is only optional. Between 1870 and 1874, in three years, an epidemic of this disease in Austria and Prussia caused the death of 162,000 Austrians and 172,000 Prussions. Prussia, profiting by her dreadful experience, passed a compulsory vaccination law; Austria did not. Result: Prussia, with a population 8,000,000 greater than Austria, lost, in the next twenty years 8,500 people from this disease, while Austria during the same time lost 239,000.

Another demonstration of the saving power of vaccination is seen in the French and German armies in the great war between these countries. The French army had not enforced compulsory vaccination; the German army had, and the German soldiers were all vaccinated. Result: The French army lost over 25,000 soldiers from smallpox; the German army, although holding the French prisoners and living with them, lost only 350 from the disease.

Still another demonstration of the protection afforded by vaccination is seen when we compare the annual death rates per million population in countries with compulsory vaccination and those without compulsory vaccination.

Compulsory vaccination: Germany, 1.1; Denmark, 0.5; Sweden, 2.1; Norway, 0:6.

Noncompulsory vaccination: Belgium, 99.9; Russia, 46.3; Spain, 56.3; Hungary, 134.4.

In this connection it is well to remember that it is not claimed that vaccination will always prevent smallpox. It furnishes a protection equal to that of having had the disease; but a few people will have the disease twice.—Weekly Bulletin, State Board of Health.

MAGNOLIA HAPPENINGS.

Graded School to Open—Revival Meeting—Other News Notes.

(Special Star Correspondence.)

Magnolia, N. C., Aug. 20.—Mr. M. Baron, of Thomasville, Ga., returning to his old home in Germany, spent several days here with his brother, Mr. Jacob Baron.

Our graded school will open Monday, 23rd. Prof. W. H. Wooten, superintendent, assisted by Mrs. M. H. Wooten, and Misses Morado and Annibel Farabow are our corps of teachers for the term. Anovel event is planned by the trustees and faculty next Tuesday night, when a reception at the school house will be tendered the parents of the pupils, from 8 till 9 P. M. Refreshments will be served, and a pleasant social hour anticipated which it is hoped will bring about a bond of union and sympathy between the teachers and parents which shall tend to a larger regular attendance by the pupils.

Mrs. John McIntee, of Wilmington, visited her brother, Mr. J. C. Horne, this week.

Rev. G. A. Martin, of Wilmington, closed an interesting revival at the Baptist Church Friday night. He is an earnest, consecrated preacher and his sermons will do lasting good. Seven bright young ladies gave their hearts to God and joined the church.

Mr. John L. Southall, secretary of the H. E. Newbury Co., will leave Tuesday for a two weeks vacation which he will spend with his sister at Newark, N. J.

Notwithstanding the frequent rains crops are looking well in this section, cotton is not shedding, and is fruiting well, and there will be the largest corn crop we have had in years. A larger increase per acre for this crop will be made this year thanks to the corn test crops promoted by our State Agricultural Department. Mr. M. B. Taylor has an acre that will make 100 bushels or more, and this on our poor sandy land is unusual. He has 10 acres that was in the woods two years ago that will average 40 bushels per acre.

Mrs. Sue McIntire, of Atlanta, Ga., is visiting Mrs. H. M. Swinson.

Mrs. M. E. Newbury and Mrs. J. N. Johnson and children are spending some time at Wrightsville, on the private car "Caroline."

There is some talk of calling an election to vote on the $15,000 bond issue for good roads for Magnolia township. It ought to be put through for if any section needs road improvement, it is ours. The sand tax our people pay is far greater than the small levy necessary to make good sand-clay roads.

Life on Panama Canal

has had one frightful drawback-malaria trouble—that has brought suffering and death to thousands. The germs cause chills, fever and ague, biliousness, jaundice, lassitude, weakness and general debility. But Electric Bitters never fail to destroy them and cure malaria troubles. "Three bottles completely cured me of a very severe attack of malaria," writes Wm. A. Fretwell, of Lucama, N. C., "and I've had good health ever since." Cure stomach, liver, and kidney troubles, and prevent typhoid. 50c. Guaranteed by Robt. R. Bellamy.

CALIFORNIA OIL.

Campaign Started for Its Use for Naval Purposes.

San Francisco, Cal., Aug. 20.—A vigorous campaign has been inaugurates by the big petroleum producers of California to promote the use of California oil for naval purposes on the Pacific coast.

An important announcement in this connection has just been made to the effect that the cruiser West Virginia soon will be converted into an oil burner. The specifications have been prepared and the changes will be made under the supervision of the Federal authorities at Mare Island.

At the same time six torpedo boat destroyers on the Atlantic are being fitted for oil. This gives assurance that the government will install the necessary oil stations on the Atlantic coast.

The statement has frequently been made that the government would be unable to utilize oil extensively for the navy until stations had been equipped on the Pacific coast, and this, it was intimated, would be a question of years.

It appears, however, that there are at the present time stations on the coasts of the States of California, Oregon and Washington, on the Territory of Alaska, and Panama.

It would require less than a year to equip a sufficient number of stations in the Orient to give the government assurance of facilities practically as complete as those it has for coal.

The prediction is made in some quarters that with the opening of the Panama canal the government will ship California oil to the Atlantic seaboard for naval use. It is predicted further that in due time, and that not so far away, the Atlantic merchant marine will be equipped with oil burners.

That greater progress has not been made to date is explained by Lewis Aubury, state mineralogist for California, in the accusation that the government has discriminated against California oil, just as it has against California stone.

WILMINGTON PRESBYTERY.

Rev. E. B. Carr Writes Something of Church Activities Here.

The Black river group of churches has secured the services of Rev. E. B. Carr, of Chadbourn, for the first and third Sundays in each month, until they can secure a pastor for all his time. The services will be held as follows: At South River church, Saturday night before the third Sunday in August and Sunday morning at 11 A. M.; at Kerr (Harmony) the third Sunday in August at 4 P. M. and at 8:30 P. M.; at Black River church Saturday night and Sunday morning of the first Sunday in September, at 8:30 P. M., and 11 A. M., respectively. Show your colors, and come in large numbers. At Caswell church on the first Sunday in September, at 4 P. M., and at Atkinson on Sunday night at 8:30 of the same day. The above programme will alternate; Black River will alternate with Caswell; South River will alternate with Kerr (Harmony).

Atkinson—A call on the Building League Fund of Wilmington Presbytery has been granted to the church erection at Atkinson. We hope to get this church enclosed in a month or so. The building committee has been asked to set the ball to rolling again.

A few shingles, a little weather boarding, a little determination on business principles, backed up by the grace of God, is all we need to do this work. Where there is Scotch blood, we need not fear.

Sabbath School Rallies—We are looking forward to two good Sabbath school rallies in this group of churches in the near future: One for Caswell, Atsinson and Black River combined; one for South River and Kerr (Harmony) combined. We expect to conduct four protracted meetings in this group of churches, one each month, beginning in October.

Chadbourn—Rev. M. McG. Shields will conduct a revival at Chadbourn Presbyterian church beginning September 5th. E. B. CARR.

OHIO VALLEY FAIR.

Railroads Give Liberal Rates for Big Show at Cincinnati.

Cincinnati, Aug. 20.—For the first time since the various State Legislatures took a hand in the matter of fixing railroad rates, the various companies operating in the Central and Southwestern Passenger Association territories are offering liberal reductions from the regular rates in fixing the scale for round trips to the Ohio Valley Exposition, which is to be held in Cincinnati from August 29th to September 24th. Realizing the great industrial and commercial benefits involved in this project, the railroads have established a series of tariffs that are certain to add to the general attractiveness of this gigantic enterprise, which bids fair to be the most important industrial congress ever held in the Middle West.

In the Southeastern Passenger Association territory a rate of 4 cents per mile, plus 25 cents, for the round trip, which is equal to a rate of 2 cents per mile each way, is authorized, beginning August 24th and continuing to September 24th, with the return limit at point of destination on September 29th. A further reduction to three cents a mile for the round trip, equally 1 1-2 cents per mile each way, plus 25 cents, is authorized on tickets to be sold daily during the time of the exposition from all points beyond a radius at which rates on this basis would figure higher than $5, the final limit on such tickets to be ten days from and including date of sale. Also tickets to be sold at 3 cents per, plus 25 cents, for the round trip, equalling 1 1-2 cents per mile each way, plus 25 cents daily during the period of the exposition from points within a radius where rates on this basis would make $5 or less, with final limit good to reach original starting points returning five days from, but not including date of sale.

For Quick Relief From Hay Fever,

Asthma and Summer bronchitis, take Foley's Honey and Tar. It quickly relieves the discomfort and suffering and the annoying symptoms disappear. It soothes and heals the inflamed air passages of the head, throat and bronchial tubes. It contains no opiates and no harmful drugs. Refuse substitutes. Robt. R. Bellamy.

GEN. GORDON AT PLAY.

Ex-Senator From Mississippi Getting Ready for Campaign.

Chicago, Aug. 19.—Former United States Senator James Gordon, of Mississippi, has come to Chicago for a brief "play day" before engaging in the Senatorial campaign in his State.

It isn't that I feel a need of rest, but even a man as young as seventy-seven years needs a vacation when he is about to enter upon some particularly arduous task," said the picturesque Southerner, who was in the Mississippi Legislature before most of the members of that body were born. He was seated in a box at a down town theatre when he made these remarks last evening

"I need a little of this occasionally to rest up on," he said, with a sweep of his hand toward the activity on the other side of the foot lights.

"The primaries are a year away and they already are engaged in the Senatorial campaign," he said.

"Me speak? Well, how am I going to keep from it? I have been in politics all my life, and although I have said time and again that I would be away out of it all this year, I know what the result will be. I'll be right back on the stump again.

"I'm just as good as I was a quarter of a century ago, so I can't really give any reason why I should stop now."

The Best Hour of Life.

is when you do some great deed or discover some wonderful fact. This hour came to J. R. Pitt, of Rocky Mt., N. C., when he was suffering intensely, as he says, "from the worst cold I ever had, (then proved to my great sitisfaction. what a wonderful cold and cough cure Dr. King's New Discovery is. For after taking one bottle, I was entirely cured. I can't say anything too good of a medicine like that." It's the smest and best remedy for diseased lungs, hemorrhages, lagrippe, asthma, hay fever—any throat or lung trouble 50c, $1.00. Trial bottle free. Guaranteed by Robt. R. Bellamy.

Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—is cured every day by

Dr. Pierce's Favorite Prescription

It Makes Weak Women Strong, Sick Women Well.

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

We shall not particularize here as to the symptoms of those peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent *free* on receipt of 21 one-cent stamps to cover cost of mailing *only;* or, in cloth binding for 31 stamps.

Address Dr. R. V. Pierce, Buffalo, N. Y.

BOTH GROWERS AND BUYERS ENTHUSIASTIC OVER

The Benthall Peanut Picker

Peanut growers and buyers alike declare the Benthall Peanut Picker the only absolutely satisfactory picker made.

Growers do the work of forty men with one machine, and more than double their profits. It picks Spanish or Virginia varieties with equal satisfaction. It picks while the vines are in a condition for saving, thus giving a crop as good as alfalfa. Buyers declare Benthall picked nuts cleaner and much more desirable than hand picked nuts.

Vines are fed to picker like grain to thresher. Nuts come out whole and clean. The stemming and cleaning capacity has been increased, and the weak parts in the 1909 model corrected. 13 ft. model run by horse or applied power; 16 ft. model applied power only.

All horsepower machines will have 1908 shoe or shaker, and we will build machines if desired with 1910 general construction and 1908 shoe or shaker.

Standard Peanut Co. buyers say: "It is a standing rule with our buyers to give preference to machine picked peanuts, as in our opinion they are far superior." W. F. Jones, grower, writes: "Threshed 173 sacks of Virginia nuts in one day. Can thresh 100 to 125 sacks Spanish." E. J. Railey: "I threshed 1609 bags with repair bill of only 75 cents."

Big money picking for your neighbors. Write for free booklet giving pictures and full information. It will mean much in profits for you.

Wilmington, N. C.

Garrell Building. 126-128 Princess St.

Come to Greensboro!

THERE is not another state in the Union with a more enviable reputation as a health resort than North Carolina. The only Keeley Institute in North Carolina is at Greensboro. I am free to admit that this advantage of location is partly responsible for the remarkable success of the Institute.

You see—in addition to being the only Keeley Institute in North Carolina, its location in Greensboro is ideal in every way. The institute is made up of a fine old estate with large, shady trees and broad lawns that take up an entire city block; the buildings having been added to from time to time as our growth demanded it. And as the buildings have expanded our equipment and methods of management have kept pace with our growth. And this, I think, is the other big reason for our success.

Every modern medical apparatus that would hasten the recovery of our patients has been added without regard to expense. Such luxuries, for instance, as Electric, Vapor and Shower Baths and Massage are provided to add to our patients' comfort. The cuisine is the delicious home-cooking of the South. If desired, rooms may be had en suite with private bath. In fact, nothing has been overlooked to make the patient's stay a pleasant one. We have a sympathetic understanding of your case that puts you at your ease from the first moment.

There is no humiliation, inconvenience or publicity about the treatment. Your stay could scarcely be more enjoyable if you were on a Summer vacation.

Our booklets tell you all the facts. Write me personally. Make it as frank as you like for every letter you send us is treated with the utmost confidence.

W. H. OSBORN, President

CARE OF THE UNFORTUNATES

(Continued From Page 7.)

What is to be done with them?"

"I treated a young woman with tuberculosis. I sent her to Texas. She came back just in time to die at home. Before she died, she said to me, 'Doctor, don't send any more consumptives to Texas, they don't want us. Nobody wants us. They make us feel bad; let us stay at home.'"

These words, spoken by a young woman gone beyond all help, probably more than any other one thing were the seed corn; they sank into the heart of the young physician.

He first began to ask why they were sent away to die, and then, why they need die at all? As the thought sank deeper and deeper into his heart he became so completely seized with its meaning that it became the one subject of his life.

Time and time again he poured his ideas into the ears of his friends. Truth to say, they were not always the best listeners.

Through months of fermentation this thought—that the State must care for her consumptives gradually took form. By slow process he reached the final conclusion, first, that consumption in its early stages can be cured if properly treated; that there are many homes where this treatment cannot be had, and yet too poor to afford costly resorts; that almost all these not only die themselves, but generally are the means of bringing certain death to all the members of the family; that the sick ones need to be cured and taught to keep free from the disease themselves, and to keep others free, and finally the State must do the work, or leave it to be undone by any.

What an enthusiast he was in those days! How he urged upon us that the State must provide the means for effecting this proper treatment, while we smiled with open incredulity. To us, it was a dream. To him, it was a dream waiting for and demanding realization.

In 1905, Dr. J. E. Brooks, of Greensboro, for he was this dreamer, presented the matter to the General Assembly. They gave him no aid. In 1907, by sheer force of unyielding persistence he induced the General Assembly to vote $15,000 for buildings, and $5,000 a year for maintenance.

A board of directors was named, and at once set themselves to the working out of a plan. Dr. Brooks was elected superintendent of the sanatorium for the treatment of tuberculosis, and then told to build it. They knew that he had the idea; that he was brimming with zeal, and that he would be happy in that at last his chance had come to do his work.

When Dr. Brooks set himself to build a sanatorium for the treatment of tuberculosis he saw that there were certain absolute necessities.

First, a suitable location with plenty of timber for fuel. Second, plenty of elbow room so that there could be no crowding. Third, a water power to furnish all needed mechanical power. Fourth, a good farm on which an abundance of vegetables could be raised.

In a very short time it was decided that the sanatorium should be located in the sand hills. Dr. Brooks became a wodsman in the sand hills of "The Land of the Long Leaf Pine" in search of a home for the sick. Again there was a search for the fountain of youth. There was glory in the search. There were hard weeks and months filled with disappointments, but they were filled with the contentment which comes to a man who has found his opportunity; and he found it in the sand hills of Cumberland county as if left there by a Kind Father for his sick children.

Imagine an inverted wash-basin. Let the outer rim rise just level with the up-turned bottom, and you have a picture of the location.

You stand on a plateau in the very center of a horizon perfectly circular with a diameter of 30 to 40 miles. The central hill, is, in fact, a little mountain—one that was left by a volcano extinct ages ago. From the top of this worn down mountain the land falls away with a gentle slope, except that in the south side about one-fourth of the circle it breaks up in ridges and hollows, making small bluffs and gorges.

The area of the site proper, with the surrounding timber and farm lands is 1,300 acres. No danger of crowding here!

The farm land lies in the south. There are acres of it, and I saw crops of fine corn and vegetables. On the farm is a herd of cows for milk. I saw also twenty fine hogs.

Three miles away at an old mill site is the water power. It now is the property of the State. It has been harnessed and lights the entire plant. It lifts the clear water up through two hundred feet of white sand into a tank from which it is carried to all the buildings.

Add to all then the fact, that this is in the "Land of the Long Leaf Pine," and you have your first picture.

This means but little! My friend, I love to call this young physician my friend, used to often tell me all this. They meant but little to me, but when I went to Montrose and walked with him over the location I found that I had made a discovery; that the State here had a fine property that but few of her citizens knew of, but of which all should know.

As we came to the summit of the old volcano, Dr. Brooks said, "turn and look." I turned and looked, and looked and turned. Never in all my life have I ever beheld scenery quite so beautiful. Twenty miles away to where the trees kiss the sky, with the eye sweeping over all the lands lying within the horizon. Twenty miles on every side a perfect circle with a radius of twenty miles more, and the view is different, but still as beautiful. There are trees on every side. The strength of the oak, with the aristocratic bearing of the long leaf pine, with mingling colors of green, dark and light.

I spent hours moving to different view points. From any point the view is one that holds with its simple beauty and its easy sweep away into the distance.

I sat in four of the buildings. As I turned my head to look out of the windows and doors my eyes rested upon a cooling picture of calm beauty. It is beauty beyond words. Beauty there always. One has but to open his eyes and see. Stand anywhere, sit anywhere, it is there for him. One could stand for hours to behold the stretch of blending colors; the fields, and then the shadows; the patches of sunshine, and with all, the majestic easy sweep of that circle.

It is true, that surroundings and conditions do play no small part with the sick. If those suffering with consumption need rest and quietness, this must be a good place. The very surroundings are beautiful and restful; they pull one away from the worry and rush. The psychological effect of surroundings cannot but be helpful. There is rest and health just to sit and look around. There is health in the dry air as is comes from the pine and sand. There is balm and strength in the air, and rest in the moan of the pines as it comes like the hushed roar of far off waters.

I slept. It was sweet to sleep as the wind went always by. I awoke, and was full of life. I sat, and there fell over me a mantel of rest. It was good to be there.

Here it is that the work has been begun. Four good buildings, nicely painted and well lighted cover the hill.

One of them is a club and rest house, another is the home of the nurses and attendants, and two are homes for the patients. In addition, there is the kitchen and dining room; and at some distance away is the home of the physician. All are good buildings with modern furnishings and equipments. The two houses for patients are on the same plan; one is two stories and the other one. In the center is one large room with a fire place. Outside of this room are the beds; the outside of this outroom is made up of windows, and they are kept open.

But the work is hardly begun. Most of what has been done came from the hands of this dreamer; he dug the stumps; he burned the bush; he has trimmed the trees and bushes from the park, that is to be; even now he is planning more work, and the board of directors will help him to realize his plans.

I asked for the treatment in the sanatorium. The reply was, rest, proper food, cleanliness, education, the care of one's own body, and also in caring for others; plenty of sleep, and all out of doors.

The food is simple and wholesome, with an abundance of milk and eggs. The construction of the buildings puts the patients out of doors. The sweet, cool, dry air and the restful surroundings give rest and sleep and the beauty makes contentment. The place is clean.

It is the cleanest place I have ever seen; religiously clean. No dust, no dirt, no bits of paper. The floors are cleaned every day; the water basins shine in whiteness; there is no trash around.

I learned my lesson; one don't have to kill flies! No filth, no flies! This is a clean place. Clean and sweet under the kitchen windows; on all sides, and in two days I saw only one fly, not counting five or six horse flies.

When I first got there I felt a little uneasiness in eating with the consumptives, but after seeing how things were managed, and making my own observations I felt infinitely safer than than I feel in the best homes or the best hotels where you can catch a bad odor at the back kitchen window.

I talked with many patients, from the rosy faced orphan to the mature lawyer. They were at ease; they were in love with the place; they were friends of Dr. Brooks, and they were getting better. I say most of them, for some of them had come too late. When I saw how pleased they were, and how well they were doing, and they told me how much they were improving, I thought of the hundreds that ought to be with them, and of how much greater provision must be made.

There is one man that does not doubt but that they will be made. Dr. Brooks is even now planning further buildings, and he will get them. When a man goes out in the woods and stays there digging trees, burning stumps and bushes to make it a place for sick people; when a man puts his life into this, counting nothing, his own personal labor or loss, there is no loss. He may make no money; I know that he has not. He may cut himself out of the world; he feels that he has. He may even be rapidly burning his own life; I fear that he is, but he is building for himself a monument of unfailing strength.

Beautify the Complexion

IN TEN DAYS

ANY WOMAN may easily and quickly gain a beautiful complexion by using Nadinola Cream. It banishes tan, sallowness, freckles, pimples, liver-spots and other facial discolorations. Worst case in twenty days.

Nadinola Cream rids the pores and tissues of all impurities, Leaves the skin clear, soft and healthy. Directions and binding guarantee in each package. Price 50c. and $1.00 by high-class toilet counters or mail.

NATIONAL TOILET CO., Paris, Tenn.

WEEKS AFFAIRS AT LUMBERTON

(Continued From Page Seven.)

ground. The R. & C. then had to go over and assist in replacing the derailed engine before they could get their coach, causing them to leave here one and a half hours late.

If reports are true some of the Lumberton young men are now engaged in taking boxing lessons. One young man is reported to have left the room Thursday night carrying a badly bruised face and nose. But the location of the ring is the interesting part of it. The Judge's room in the court house is said to be used for that purpose. Why not, it is the best furnished room in the building and if anything was to be damaged the taxpayers of the county are able to stand for all damages. The janitor of the building is supposed to see that it is locked up at night, and if he doesn't do it, why not? The sheriff says the Commissioners took it out of his hands and now, while a colored man cleans up the building, a white man has the job. Will the County Commissioners allow the court house building to be used for such purposes? We don't think so.

The Truman Quartette, which went to Rowland Thursday evening to participate in a musical concert given in that town by the Eagle Furniture Co., of this place, report a splendid trip. When Parmele, Carlyle, Stephens and Lennon don't have a nice time, the other boys need not try. They are all to the good.

The Seaboard announces the last excursion of the season from Charlotte to Wilmington to be operated on Tuesday, August 30th, leaving Charlotte at 8 A. M. and returning will leave Wilmington on the morning of September 1st.

Mr. James Jones, of the U. S. army, who has been visiting relatives here during the Summer, returned to Fort Slocumb first of the week.——Miss Grace Redmond and nephew, Master Ernest Redmond, went to Wilmington where they will remain until Sunday afternoon, when they will return home.

Mrs. R. M. Norment spent yesterday in Dillon, S. C., returning in the evening.——Mrs. T. W. Bullock and little daughter left the first of the week for Troy, N. C., where they will spend some time with relatives.——Mr. G. C. Page has completed his business course at King's Business College and returned home. Mr. Page expects to rest until September 1st, when he will again be engaged with Mr. L. H. Caldwell.

We hear the names of Messrs. A. J. Floyd, of Fairmont, and W. P. Barker, of Lumberton, mentioned as being good men to elect as County Commissioners at the Fall election. No better men are to be found in the county than these gentlemen, but we are not informed as to whether or not they would consent to be candidates.

Unless the rains cease in a very short time there will be much fodder lost in this section. It is now time to gether it, and much of it is ready, but it is throwing away time to strip it and then have it rot in the field before it has the chance to be cured.

Mr. T. J. Floyd is having erected a six-room cottage in East Lumberton. Mr. Elmer McNeill is the contractor.

It is reported that the old Bryant saw mill, at present located near old Kingsdale, is to be removed in a few days to the old site of the Williams mill, just below the railroad bridge.

On account of the supply of timber running short as a result of the wreck of the log train, the Kingsdale mill had to close down two or three days this week, but is again running on full time.

Mrs. A. P. White, who has been sick of typhoid fever for the past several weeks, is reported as improving for the past two or three days.

Miss Alice Toon, of Whiteville, is visiting friends in Lumberton.

Struck a Rich Mine.

S. W. Bends, of Coal City, Ala., says he struck a perfect mine of health in Dr. King's New Life Pills for they cured him of liver and kidney trouble after 12 years of suffering. They are the best pills on earth for constipation, malaria, headache, dyspepsia, debility. 25c at Robt. R. Bellamy's.

LINCOLN LITHIA WATER

"BOTTLED AT THE SPRING"

Lincoln Lithia Inn Open to Guests May 15th to October 1st. Literature Upon Request

Do you ever think about the **ANALYSIS** of the water you are drinking? Do you know that one's life is only so long as the life of the arteries? Arterial Degeneration is due mainly to the absorption of poisons from the intestinal channel and the inability of the system to eliminate these poisons. The skin, the bowels, and the kidneys are the only avenues through which these poisons can be eliminated. A good water is one which gently stimulates the kidneys, liver and bowels. **LINCOLN LITHIA** does this because it is a diffusible water and contains the alkaline bicarbonates of Lithia, Soda and Magnesia, the best known drugs for the stimulation of these organs and in quantities sufficient to be active and not too active. A good water should not be loaded with undesirable mineral salts; solids harmful to the system and easily deposited in the tissues.

The most recent investigations in Kidney Diseases show common salt (Chloride of Soda) is the worst thing to take into the system; when one has this disease. **Lincoln Lithia** contains less than the human fluids.

When you buy a Lithia Water, think about what you are getting. Buy LINCOLN LITHIA, it is a delicious table water and contains only desirable mineral solids, the reason it is so universally endorsed by the Best Physicians of the State.

In cases of 12 half gallon bottles, $4.00 and 5 gallon demijohns, $3.00. For sale by druggists and grocers or

FINANCIAL and COMMERCIAL

UNUSUAL ACTIVITY IN COTTON

Sensational Advance in the Price of August Cotton on the Market Yesterday—Closed Quiet, 45 Points Higher.

New York, Aug. 20.—There was a sensational advance in the price of August cotton today as a result of covering by belated shorts who found very few sellers around the ring now that it is getting too late in the month to ship cotton here from the South with any certainty of its arriving in time for its delivery.

New crop positions held back owing to reports of better weather in Texas, but shared the August strength to some extent until near the close when realizing caused general reactions from the top and last prices were barely steady net two points lower to 33 points higher, August being higher and other months within a point or two of last night's finals.

The market opened steady at unchanged prices to an advance of 5 points in spite of disappointing cables and the talk of rains in Texas. The strength of August seemed to dominate the situation after the opening, however, and after selling first at 15.90 that month advanced to 16.44, or 50 points above the closing figures of last night. It was estimated that not more than 200,000 bales were purchased on this big advance in the price, and the talk around the ring was that foreign and other shorts remaining in the market must cover at least 50,000 bales.

New crop positions sold up to a net gain of 14 to 18 points in sympathy with the August advance, and on the early private wires claiming that not much rain had actually fallen in the droughty sections of Texas while the western belt forecast suggested clearing weather over Sunday. But later reports from Texas indicated that the rain had been rather more general and when the advance in August was checked the whole market turned easier under realizing. The close was at practically the lowest figures of the day on all positions except August. August made new high records for that position for the season, but the level reached was not quite as high as that touched by July contracts under similar circumstances last month.

Receipts at the ports today 6,086 bales against 4,873 last week and 2,314 last year; for the week 4,000 bales against 40,796 last week and 36,388 last year. Today's receipts at New Orleans 62 bales, against 81 last year, and at Houston 6,584 bales against 2,391 last year.

Spot closed quiet 45 points higher; middling uplands 16.40; middling gulf 16.55. No sales. Cotton futures opened steady and closed barely steady.

Month.	Open.	High.	Low.	Close.
August	15.90	16.44	15.90	16.27

Quotations same day last year—Spirits turpentine firm 44c; rosin firm $2.55; tar steady $1.60; crude turpentine firm $1.75, $2.75 and $3.50.

RECEIPTS.

Spirits turpentine	16
Rosin	78
Tar	9
Crude turpentine	35

Receipts, same day last year 26 casks spirits turpentine; 121 barrels rosin; 10 barrels tar; 22 barrels crude turpentine.

COTTON MARKET.

Market nominal. Quotations corresponding day last year nominal.

Receipts—bales, same day last year — bales.

PRODUCE MARKET.

(Quoted by W. J. Meredith Aug. 20th.)

PEANUTS—North Carolina, No. 1 $1.20 to $1.25 per bushel.

CORN—Firm 85 to 90 per bushel.

N. C. HAMS—Dull; hams 20; shoulders and side 11c.

EGGS—Good demand 23 cents.

CHICKENS—Spring 15 and 30; grown 40, scarce.

BEESEWAX—Firm 27c.

TALLOW—Firm at 4 1-2 to 5c per pound.

SWEET POTATOES—Firm at $1.40 per bushel.

HIDES—Dr. flint 13c; green 7c per pound

WOOL—Burr 12 to 15c; free of burr 18 to 20c.

GEESE—Out of Season.

PORK—Out of Season.

SHEEP—Grown $1.00 to $2.50.

LAMBS—Good demand $1.50 to $3.00.

PEAS—Out of Season.

IRISH POTATOES—New crop 40 to 50c per bushel, dull.

ACTIVE DEMAND FOR COTTON.

Brought About a Quick Advance in Market—Foreign Cables Lower.

(Special Star Telegram.)

New York, Aug. 20.—Foreign markets were lower than expected, having received reports of showers in Texas. While some of these showers were officially reported at Abilene and Galveston the active demand for August brought about a quick advance and it was not until the selling orders came from the Southwest on these rains that the market fell to last evening's prices on the new crop.

Our advices report good rains in several of the counties which have been suffering from drought. No more cotton can be brought here from Texas for delivery on August and there is still a short interest for continental account outstanding.

HUBBARD BROS. & CO.

NAVAL STORES.

New York, Aug. 20.—Rosin quiet, turpentine quiet.

Savannah, Ga., Aug. 20.—Turpentine firm 68 3-4; sales 1,261; receipts 764; shipments 4,081; stocks 10,945. Rosin firm; receipts 2,575; shipments 3,749; stock 59,031; sales 2,252. Quote: A, B, C, 5.50; D, 5.00; E, 5.70; F, 5.80; G, 5.85; H, 5.90; I, 5.95; K, 6.00; M, 6.00; N, 6.15; WG, 6.25; WW, 6.40.

Charleston, S. C., Aug. 20.—Turpentine and rosin unchanged.

Why stay and fight the hot weather when you can go to the mountains for $5.00 round trip? Call and see Seaboard Agent t, office Orton Hotel.

Souvenir dance tomorrow night at Lumina. **

DULL DAY ON STOCK MARKET

Movement Was Narrow and Volume of Business Ridiculously Small—Tendency Continued Irregular Throughout Day.

New York, Aug. 20.—Operations on the stock exchange today were altogether perfunctory and negligible. The volume of business was ridiculously small, even for a half holiday, and while the tendency continued irregular, the movement was so narrow as to rob it of all significance.

Reports issued by the commercial agencies ranged from indifferent to favorable, some lines of trade showing a better tone, with others at a standstill.

From the Pennsylvania coal districts came word of further projected suits by the independent coal operators against the coal carrying roads, and this was confirmed by the filing of additional protests against proposed freight increases with the Interstate Commerce Commission.

The bond market was sympathetically irregular, with total sales par value of $709,500. United States government 3s advanced 3-8 per cent. and the 4s 1-4 per cent. on call. Total sales for the day were 122,800 shares.

THE GRAIN MARKET

Chicago, Aug. 20.—Liquidation in the wheat pit caused the market to decline rapidly, the close being 1 1-8 to 1 1-4 to 1 1-2 to 5-8 off. Corn also broke sharply, finishing 1 3-8 to 1 1-8 down and oats dragged to a close 1-2 to 5-8 off. Provisions were strong early in the day but later felt the grain weakness and closed unchanged to 12 1-2 down.

Wheat—No. 1 red 1.00 1-4 to 1.01 1-4; No. 2 red 99 3-4 to 1.00 1-4; No. 2 red 97 to 98 1-2; No. 1 hard 1.00 1-4 to 1.01 1-4; No. 2 hard 99 3-4 to 1.01 1-4; No. 3 hard 96 1-4 to 1.00 1-2; No. 2 northern 1.20 to 1.22; No. 2 northern old 1.14; No. 3 northern new 1.02 to 1.07 3-4; No. 3 spring 97 to 1.01 1-2; durum 89 to 89 3-4.

Corn—No. 2 61 3-4; No. 2 white 62 1-4 to 62 1-2; No. 2 yellow 62 to 62 1-4; No. 3, 61 1-2; No. 3 white 62 to 62 1-4; No. 3 yellow 61 3-4 to 62 1-4; No. 4, 61; No. 4 white 61; No. 4 yellow 61.

Oats—No. 2, 32 to 32 1-4; No. 2 white 35 to 35 1-2; No. 3, 33; No. 3 white 34 1-4 to 34 3-4; No. 4 white 33 3-4 to 34; standard 35 to 35 1-4.

Why Is Sugar Sweet?

If sugar did not dissolve in the mouth you could not taste the sweet. GROVE'S TASTELESS CHILL TONIC is as strong as the strongest bitter tonic, but you do not taste the bitter because the ingredients do not dissolve in the mouth, but do dissolve readily in the acids of the stomach. Is just as good for Grown People as for Children. The First and Original Tasteless Chill Tonic. The Standard for 30 years. 50c.

COST OF LIVING.

Live Comment by Well Known Washington Correspondent.

(By Clyde H. Tavenner.)

Washington, Aug. 20.—The American people will recall that Senator Henry Cabot Lodge's price-investigating committee found that no part of the 58 per cent. increase in the cost of living in this country in the last ten years was due to the tariff. Political economists all over the land were sorely puzzled at the report.

The phenomenon can now be explained. The report of the minority of the committee, recently published, shows that the Republicans made no serious attempt to ascertain whether the tariff was responsible or not. Listen to this extract from the minority report:

"In examining the witnesses we (the committee) scarcely touched upon the territory of the highly protected commodities."

Lodge, who helped frame the Payne-Aldrich bill, and takes the position that the ultimate consumer is a myth, saw to it that the investigations were confined almost exclusively to foodstuffs and cotton, and to the production, distribution and cost to the consumer of wheat, corn, beef, mutton and hog products, of which commodities the United States produces a large per cent. of the world's production, and which we export in enormous quantities. As to these articles it may be supposed that, when freed from the influence of trusts and monopolies, the tariff should not cut a large figure except that it increases the cost of their production.

Do you see the point, Mr. Consumer? Lodge had been assigned by Senator Aldrich to make a report, obviously for campaign purposes, which would absolve the tariff from all blame in connection with the awful increase in the cost of living under our system of excessive protection. Lodge evidently concluded that the safest way to accomplish this end would be to avoid asking any questions of witnesses concerning the advances in the prices of highly protected articles, such as the products of the sugar trust, the steel trust, the harvester trust and the lumber trust, all of which contribute heavily to the Republican campaign fund.

The Lodge report gave 15 reasons for increased prices, and found that the tariff was "no material factor." This report is being used by the men who voted for the Payne-Aldrich bill in the hope it will prevent them from being retired to private life.

RED BUCK FOR SHERIFF.

North Carolinian Who Proved He Was the "Stuph."

(Charlotte Chronicle.)

Red Buck, Mr. H. E. C. Bryant, who left the Daily Observer recently to cast his fortunes with the great Northwest, has already "made good" as a Westerner. A few days ago he swung onto a fleeing pickpocket who had escaped the police at Missoula, his new home, and made an instantaneous hit with the whole population. The pickpocket was yelling that he would shoot anyone who touched him and the folks generally were giving him the right of way. Not so with the former sorrel-top Tar Heel. As the thief was passing the newspaper shop where Buck works, the Missoulian Buck gave a flying leap, tackled his man low and when the officer came up quietly bowed and passed his prisoner over to the cop with the gun. So much attention did the stunt attract that the Democrats are now talking of running the now full-fledged Westerner for sheriff.

The chase and capture of the pickpocket is told by the Missoula Herald, Buck's rival paper, as follows:

The Herald said:

Facing the danger of real flashing steel, believing the man was about to shoot, and bucking up against double his own weight, H. E. C. Bryant, recently from Washington, to accept a position on the editorial force of The Missoulian, stopped a pickpocket running from the officer, made more of a local reputation for himself this morning than he could have attained by some weeks of his excellent newspaper work. The affair happened a few minutes after the circus parade when the streets were crowded with people and attracted considerable attention, especially when Constable Pat Hale started shooting at the fleeing robber, missing every shot. Failing in this, he called "Stop thief" lustily, and it was then that Mr. Bryant answered the call and downed his man in the middle of the street.

The affair started in the elevator of the Hammond block when Thomas Estell, carrying $142 in a purse in his trouser pocket, and Albert Gunderson, both of Ravelli, entered the cage to be taken upstairs to draw their pay for recent fire fighting work. As they entered the elevator three men who had been standing in front of the block quickly followed. As the cage got under way these three, who seemed to know of Ethell's roll, worked the "crowd" act, and the largest of the three who afterwards gave his name as Wilbur Thompson, succeeded in extricating the purse with the money from Ethell's pocket. Ethell felt his money going and spotted the thief, and as he reached the landing he jumped the man, forcing him to give back the purse and then ordered him to march on down stairs, Gunderson following. Protesting but defiantly urged forward, Thompson was forced downstairs, down West Front street and turned up Stevens street, en route to the police station. Just as the three men reached the alley back of the Missoula Hotel, only a few steps from the police court, Thompson made a break for liberty. Ethell, however, clung to him and stuck closer than a brother until Thompson succeeded in pulling a knife. Then Gunderson entered the game, and for his pains got severely slashed across his right hand in his efforts to disarm the fighting thief. Thompson finally broke away just as Constable Pat Hale appeared and ran north on Stevens street to Main, the officer shooting at him just as he turned the corner to go east into the crowd. Then Hale called "Stop thief" with all his might. Mr. Bryant happened to be standing in front of The Missoulian office and made up his mind to tackle the thief, remembering his old football days. Waving his knife in the air and threatening to shoot by his action, the thief attempted to bluff Bryant, who only ducked a little lower and dived for his man. Thompson went down like two thousand of brick, and before he could regain his feet the officer was on his back and the two soon had him under control. Thompson was landed in the county jail. His two unknown companions are being hunted this afternoon.

Staggers Skeptics.

That a clean, nice, fragrant compound like Bucklen's Arnica Salve will instantly relieve a bad burn, cut, scald, wound or piles, staggers skeptics. But great cures prove it's a wonderful healer of the worst sores, ulcers, boils, felons, eczema, skin eruptions, as also chapped hands, sprains, and corns. Try it. 25c at Robt. R. Bellamy.

PILES CURED AT HOME BY NEW ABSORPTION METHOD.

If you suffer from bleeding, itching, blind or protruding Piles, send me your address, and I will tell you how to cure yourself at home by the new absorption treatment; and will also send some of this home treatment free for trial, with references from your own locality if requested. Immediate relief and permanent cure assured. Send no money, but tell others of this offer. Write today to Mrs. M. Summers, Box P, Notre Dame, Ind.

FAVORS AMERICAN CONGRESS.

Uniformity in Construction and Through Trunk Lines Essential.

"The most potent factor for the future development and success of the automobile industry and its allied interests in this country is the necessity of uniformity and need of standardization in the construction of new roads as well as the proper maintenance of them," was the statement made by Mr. Joseph W. Jones, the well known automobilist who returned on Wednesday last from a three months' absence in Europe, having covered about 5,000 miles in touring through all of the principal countries on the continent.

As a special agent of the Department of Agriculture of the United States government, Mr. Jones, who is also a director of the Touring Club of America, was delegated to represent the government at the Second International Road Congress held at Brussels a fortnight ago and was most enthusiastic in his praise of the success of the convention which was attended by the representatives of all the countries interested in road improvement.

"One of the great lessons of the International Road Congress," said Mr. Jones, "is the absolute necessity for the introduction of a uniform system of road building throughout the United States similar to the systems which have been adopted in France and Great Britain where the highways decrease in the width according to the importance of the traffic. From my observation," continued Mr. Jones, "the roads in this country, especially throughout the South, are too wide and lack the requisite depth of foundation necessary to insure permanency. The idea that some highway engineers have of simply laying a foundation of a few inches in depth is altogether wrong, and roads so constructed are expensive to maintain and must be rebuilt in a short time. I consider that the English roads, although the narrowest, are the best roads over which I toured in Europe, especially as the surface was thoroughly tarred and covered with a light coating of sand."

The Royal Automobile Club, of Great Britain, the Automobile Association of London, and the Touring Club of France, are all actively identified in this good roads movement and are conducting exhaustive experiments in the construction of an improved type of road-bed and have the co-operation of their respective governments in this splendid work.

Through the efforts of the officials of the Touring Club of France a splendid new road, 300 miles in length along the Reverie in Southern France is now being completed and will be the finest stretch of road-way in the world. The plan adopted abroad provides for the erection of permanent sign posts by the government giving the distances and the names of the cities and villages as well as indicating dangerous turns and crossings.

The new roads in Great Britain are as smooth as a billiard table and although the surface had been treated with a thin coating of tar the construction had been so thorough that huge traction engines drawing cars loaded with stone and gravel had no noticeable effect upon them.

They Have a Definite Purpose.

Foley Kidney Pills give quick relief in cases of kidney and bladder ailments. Mrs. Rose Glaser, Terre Haute, Ind., tells the result in her case. "After suffering for many years from a serious case of kidney trouble and spending much money for so-called cures, I found Foley Kidney Pills the only medicine that gave me a permanent cure. I am again able to be up and attend to my work. I shall never hesitate to recommend them." Robt. R. Bellamy.
